Indeed, it is true. Trees are the greatest blessing we can get. Trees are very useful and helpful to animals, birds and humans. We can't imagine our life without trees. Trees are like saint. They always give never demand anything. Trees give us fresh oxygen to breathe. They give us wood to make furniture and household items. Trees give us sweet fruits and beautiful flowers. They also provide herbs and medicines. Trees bring rain and provide us pure water. Trees are home for wild animals and birds. Trees stop soil washing and preserve the fertility of the land. They stop air pollution. Thus, they maintain a balance in nature. They keep the environment clean. But nowadays we are cutting lots and lots of trees. As a result, the balance in nature is upset. Pollution and heat are increasing day by day. We are facing problems like acid rain and global warming. Our planet/earth is in great danger. So, we must save / protect the trees. We must grow more trees. We must remember :

"If we will save the trees today, the trees will save us tomorrow."
