11. 'Tracks to Taj Nagar' is an inspirational story that shows how villagers of Taj Nagar fought against the odds and built their own railway station.

People of Taj Nagar had to go to Gurugram, Delhi and Rewar for work every day. Students had to go to colleges to study. But there was no railway station in Taj Nagar. The people of Taj Nagar had to go to Halimandi or Patli to catch a train. Both the stations were six km. away from Taj Nagar. Thus, there was a need for a railway station in Taj Nagar. The people of Taj Nagar demanded [asked] for a railway station year after year. But the Railways told them that they could not build the station as they did not have funds. Finally, the villagers decided to craft their own destiny. They collected [pooled in] twenty-one lakh rupees and built a railway station on their own.

Thus, the dream of railway station came true for the people of Taj Nagar.

**OR 'Kach and Devyani' is a beautiful story taken from Aadi Parva of the Mahabharat'. It is about how Kach risked his own life to learn the magic formula - Sanjivani Vidya to help the Devs.**

Kach was Brihaspati's son. He was young, smart and handsome. The Devs had sent him to Shukracharya to learn Sanjivani Vidya. He served Shukracharya with all his devotion and won Shukracharya's favour. When the asurs found out about Kach, they killed him. But Shukracharya revived him as Devayani loved him deeply [very much]. The asurs caught him and killed him again. But Shukracharya revived him this time as well. So, the Asurs made a clever plan. They caught Kach the third time and killed him. Then they burnt his body and mixed his ashes into Shukracharya's divine wine. After drinking it, Shukracharya was not able to revive him. But then he used a brilliant idea. He taught Kach the Sanjivani Vidya and revived him. After Kach came out, he revived Shukracharya with his newly learnt mantra. When Devayani asked Kach to marry her, he refused because he considered her as a sister.

#### 56. Essay : Visit to a Science Fair

Yesterday on , 5th July, my parents and I visited a state level Science Fair organized by GUJCOST ( Gujarat Council of Science and Technology) . There was no entry fees for children. The ticket price for adult was only Rs. 50 which was quite reasonable.

The Science fair was divided into five different sections. First, we visited the experiment section where cool experiments were conducted for the visitors. We were really surprised to see some of the experiments. Next, we went to the Agricultural Section. It was really nice. We came to know about 'Hydroponics method of agriculture' with the help of plastic pipes on terrace or balcony. Then we visited the robotic section. In this section different types of robots were put into display. We saw different types of robots there. It was fun to see robots fighting and playing football. In the movie section, we saw a 3D movie about the birth of our universe and space exploration. Then we had some snacks in the refreshment section. In the end, we visited space section which was my favourite. We saw miniature models of rockets, space shuttles, satellites and solar system. Everything here was so beautiful

that I could not take my eyes off of them. At the end, there was a small gift shop which had unique things. We bought a lava lamp and Science kit from there.

**OR Essay Picnic on the river bank**

Last summer, during the school holidays, my family and I decided to go on a picnic to a beautiful river bank. It was a sunny Sunday morning, and we were all excited about the picnic. We chose an attractive spot by the Sabarmati River, located just a short drive from our home in Ahmedabad. We left home early in the morning to avoid the heat of the day. The drive was pleasant, with the cool morning breeze. Upon reaching the river bank, we were greeted by beautiful surroundings. The river flowed gently, its clear water was sparkling in the sunlight. The sandy shore was perfect for setting up our picnic spot. Tall trees provided shade, making it an ideal place to relax and enjoy nature. We quickly set up our picnic area with a large mat, folding chairs, and a picnic basket filled with delicious homemade food. The first activity on our agenda was trekking. We walked along the shore, collecting unique pebbles and shells.

As the day progressed, we did various activities. Some of us took a refreshing dip in the river, while others preferred to sit back and enjoy the peaceful surroundings. We also played a few rounds of badminton and frisbee.

Lunchtime was a delightful. We had packed a variety of dishes, including sandwiches, salads, fruits, and cold drinks. The highlight of our meal was the homemade biryani, which everyone loved. We sat together, sharing stories and laughter, making the meal even more enjoyable. After lunch, we took a short nap under the shade of the trees. The breeze was cool and refreshing. Later in the afternoon, we went for a boat ride, which was an unforgettable experience. As the sun began to set, we packed up our things and prepared to go back home.

The day had been filled with joy, laughter, and memorable moments. The picnic on the river bank was a perfect escape from the busy daily life. It was a wonderful experience. The beautiful surroundings, fun activities, and delicious food made it a day to remember.

**OR "We are fascinated with robots because they are reflections of ourselves." - Ken Goldberg**

When I was a child, I used to play with toy robots. Even today, I love robots very much. It is my dream to become a Robotic Engineer and make my own robot. I will name him Robi [Robbu]. My robot would be light in weight. But it would be strong and powerful. It would look cool and futuristic.

My Robi would be able to do [perform] the duties of a doctor, a cook, a teacher and a caretaker. Thus, it would be very helpful for working women and children. It would be able to do all types of household work easily. When the parents would be away, my Robi will look after them, cook for them, feed them and also play with them. Parents would never have to worry about the safety of their children. My Robi would be their best friend. Children would love my robot.

It would have an inbuilt communication system. The owner would be able to contact and control the robot from any place. My robot would have 'Artificial Intelligence'. It would be able to learn new things itself. It would serve its owner day and night without any complains. My robot will be a blessing for everyone.

It might just be a dream right now. But it will not be a dream forever. I shall work hard and make my dream come true. I promise that one day, I shall introduce my Robi/Robbu - my pride to the world.

**"From the canvas of dreams, I will create my dream robot that will paint the picture of tomorrow."**

**57. E-mail**

To : vidhi15@gmail.com
Subject : Stay home ! Stay safe !
Dear friend, I hope this e-mail finds you happy and healthy. I have written this e-mail to tell you to take good care of yourself and your family members during this testing times of Covid - 19. As you know, Corona virus is spreading like wildfire and affecting a lot of people. The government has now lessened some restriction. People can now go out and work in offices. But I request you not to go out unless it is absolute necessary. I request you to follow some of the points to be safe : 1. Eat healthy food and stay hydrated. 2. Wash your hands properly and thoroughly with soap. 3. Use mask when you go out. 4. Don't go to crowded places.
Yours faithfully, Riya Prajapati

Devanshu Solanki

School Report Team - 10 (A)

Yesterday on 29th August, our school celebrated Sports Day . All the students and teachers took part with joy and great enthusiasm. Mr. P. B. Gadhvi, D.E.O. of Ahmedabad was invited as the chief guest. **\*Parents were also invited to watch the games. Many games were played such as : race, long jump, high jump, kho - kho, kabaddi and badminton. The finals of kho - kho and kabaddi were very thrilling. At the end of the games, Mr. P. B. Gadhvi gave prizes and trophies to winners of different games. He also gave them certificates. We all clapped and cheered them.\*** Then he gave his speech on the importance of sports and games in our lives. Then our principal, Mr. Vijay Raval gave his speech. He thanked all the teachers, students, parents and participants to make the event a great success. He also thanked Mr. P. B. Gadhvi for coming to our school. At the end of the event, sweets were distributed among the students. The students happily returned to their homes.

What a memorable day it was !

**58. This is a picture of school's playground.**

There is a big tree and some plants with beautiful flowers in the ground.

We can see many boys and girls dressed in uniform.

Some boys and girls are cleaning the ground with brooms and mops.

A girl is collecting the fallen leaves and putting them in the dustbin.

Some girls are clearing weeds from the ground.

A girl is planting saplings.

A boy is trimming the plants with big scissors.

Two boys are watering the plants.

A boy near the bench is giving them instructions.

All the students are busy with their work.
