- **2**1. Three friends, Aman, Ashish and Ashi after completing their MBA from a reputed management institute, formed a start up named 'Solutions'. The goal of the start up was to make a social and environmental impact through its services. 'Solutions' supports social business ideas to improve living conditions in slums of Mumbai. As all the three friends are specialised in social work, they adopted three different slums of Mumbai and started educating the slum dwellers in their own creative manner. Aman used 'playway method', Ashish used 'music' as a method of learning while Ashi used 'activity based method of learning'. They used basic knowledge in their unique manner and were able to educate the slum dwellers.

It implies that skillful and personal application of acquired knowledge varies from individual to individual in achieving desired results.

- (a) Identify and state the nature of management discussed in the above case.
- (b) Quoting lines from the above para, state any two features of nature of management identified in (a) above.
- (a) Explain the following as factors affecting 'Financing Decision':
  - Fixed operating costs and (i)
  - (ii) Cash flow position of the company

OR

(b) State any three points of difference between 'Primary Market' and 'Secondary Market'.

The rapid changes having taken place in the society have created pressure on organisations to readapt its products, type of jobs required and type of skills necessary to complete these jobs. To keep up pace with the rapid changes in the business environment, 'Suzon cars', a company manufacturing automobiles for the last thirty years decided to start manufacturing electric cars with Artificial Intelligence technology. With the introduction of Artificial Intelligence, the company had to improve the knowledge and skills of its employees. They wanted that all their employees improve their performance on the current job and are prepared for any intended job in future. This way they would not only be able to increase their knowledge and skills but would also improve their performance. By doing this, the organisation too would get various benefits.

- Identify the concept discussed above which would help the employees (a) to do the job in a better way using Artificial Intelligence Technology.
- (b) State any five benefits of the concept identified in (a) above to the organisation.

As the demand for the electric vehicles grew, Kaysons Ltd. needed more capital to keep up with the demand for automotive parts. Atul, the Finance Manager of Kaysons Ltd. suggested that the company should raise funds through a public issue of shares as the stock market was bullish. The Chief Executive Officer fully understood that this process of raising funds would not only reduce the managements' holding in the company but would also require considerable expenditure. Even then he agreed with the Finance Manager and the public issue of shares was made complying with the guidelines of Securities and Exchange Board of India.

Identify and state four factors affecting choice of capital structure being discussed above.

अंकुर सचदेवा ने आई टी बी विश्वविद्यालय से अपनी एम बी ए की है। वह वैज्ञानिक प्रबन्धन के अपने ज्ञान को उसके द्वारा स्थापित फास्ट फूड रेस्टरां 'कॉफी बीन' में उपयोग में लाना चाहता था। यह रेस्टरां मेन्यू के एक भाग के रूप में बर्गरस्, फ्राइस और शेकुस इत्यादि परोस रहा था।

आजकल लोग गुणवत्ता के बारे में बहुत सचेत हैं अत: वह मानकीकृत कच्चा माल, प्रक्रियाएँ, विधियाँ, कार्य दशाएँ, मशीन इत्यादि का उपयोग कर रहा था। उद्देश्य था उत्कृष्टता के मानक स्थापित करना । ऐसा करके वह न केवल लागत में कमी करने में सफल रहा अपितु बर्गरस्, फ्राइस तथा शेक्स की नई किस्में प्रदान करने में भी सफल रहा और इस प्रकार व्यापार की मात्रा बढ़ गई।

अंकुर सचदेवा इस बात में विश्वास रखता था कि कुशलता को बढ़ाने के लिए केवल एक सर्वश्रेष्ठ विधि होती है । जिसके परिणामस्वरूप उसने बर्गरस् को ग्रिल करने, फ्राइस को पकाने तथा शेकुस तैयार करने की सर्वश्रेष्ठ विधियाँ विकसित कीं। उसका मुख्य उद्देश्य था ग्राहकों की संतुष्टि को अधिकतम करना, जो उसने प्राप्त कर लिया।

न केवल अपने कार्य को सर्वश्रेष्ठ तरीके से करना सीखना अपितु कुशलतापूर्वक अपने कार्यों का निष्पादन करने के लिए 'कॉफी बीन्स्' नियमित रूप से प्रशिक्षण एवं विकास कार्यों में विनियोजित करती है ताकि कर्मचारियों को आवश्यक ज्ञान एवं कौशल से सुसज्जित किया जा सके । 'कॉफी बीन्स' विश्वास करती है कि कुशल कर्मचारी अधिक उत्पादन करेंगे और अधिक आय अर्जित करेंगे । इससे कम्पनी एवं कर्मचारी दोनों के लिए अधिकतम कार्यकुशलता एवं समृद्धि सुनिश्चित होगी।

उपरोक्त स्थिति में 'कॉफी बीन्सु' द्वारा उपयोग में लाए गए वैज्ञानिक प्रबन्धन के सिद्धान्तों एवं तकनीकों पर प्रकाश डाला गया है। ऐसे किसी एक सिद्धान्त एवं दो तकनीकों को समझाइए।

Now a days people are quality conscious, so he was using standardised raw materials, processes, methods, working conditions, machinery etc. The objective was to establish standards of excellence. By doing this he was not only able to reduce the cost but was also able to provide new varieties of burgers, fries and shakes leading to increased turnover.

Ankur Sachdeva also believed that there was only one best method to maximise efficiency. As a result he developed best way of grilling burgers, cooking fries and preparing shakes. His main objective was to maximise the satisfaction of customers, which he was able to achieve.

Not only to learn the best way of doing a job, but to perform their tasks efficiently, 'Coffee Bean' regularly invests in training and development programmes to equip employees with the necessary skill and knowledge. 'Coffee Bean' believed that efficient employees will produce more and earn more. This will ensure their greatest efficiency and prosperity for both company and workers.

The above case highlights the use of Scientific principles and techniques by 'Coffee Bean'. Explain any one such principle and two techniques.

## Strictly Confidential: (For Internal and Restricted Use Only) Senior School Certificate Examination March -----2024 Marking Scheme---Business Studies (054) 66/4/1

## **General Instructions:**

| 1 | You are aware that evaluation is the most important process in the actual and correct  |
|---|--|
|   | assessment of the candidates. A small mistake in evaluation may lead to serious  |
|   | problems which may affect the future of the candidates, education system and teaching  |
|   | profession. To avoid mistakes, it is requested that before starting evaluation, you must   |
|   | read and understand the spot evaluation guidelines carefully.  |
| 2 | "Evaluation policy is a confidential policy as it is related to the confidentiality of   |
|   | the examinations conducted, Evaluation done and several other aspects. Its'  |
|   | leakage to public in any manner could lead to derailment of the examination  |
|   | system and affect the life and future of millions of candidates. Sharing this  |
|   | policy/document to anyone, publishing in any magazine and printing in News   |
|   | Paper/Website etc may invite action under various rules of the Board and IPC."   |
| 3 | Evaluation is to be done as per instructions provided in the Marking Scheme. It should   |
|   | not be done according to one's own interpretation or any other consideration. Marking  |
|   | Scheme should be strictly adhered to and religiously followed. However, while  |
|   | evaluating, answers which are based on latest information or knowledge and/or  |
|   | are innovative, they may be assessed for their correctness otherwise and due marks   |
|   | be awarded to them. In class -XII, while evaluating two competency based   |
|   | questions, please try to understand given answer and even if reply is not from   |
|   | marking scheme but correct competency is enumerated by the candidate due   |
|   | marks should be awarded.   |
| 4 | The Marking scheme carries only suggested value points for the answers   |
| - | These are in the nature of Guidelines only and do not constitute the complete answer.  |
|   | The students can have their own expression and if the expression is correct, the due   |
|   | marks should be awarded accordingly.   |
| 5 | The Head-Examiner must go through the first five answer books evaluated by each  |
| J | evaluator on the first day, to ensure that evaluation has been carried out as per the  |
|   | instructions given in the Marking Scheme. If there is any variation, the same should be  |
|   | zero after deliberation and discussion. The remaining answer books meant for   |
|   | evaluation shall be given only after ensuring that there is no significant variation in the  |
|   | marking of individual evaluators.  |
| 6 | Evaluators will mark( $$ ) wherever answer is correct. For wrong answer CROSS 'X"  |
| v | be marked. Evaluators will not put right ( $\checkmark$ ) while evaluating which gives an impression                                       |
|   | that answer is correct and no marks are awarded. This is most common mistake which   |
|   |  |
| 7 | evaluators are committing.   |
| 7 | If a question has parts, please award marks on the right-hand side for each part. Marks  |
|   | awarded for different parts of the question should then be totaled up and written in the   |
|   |  |
| 0 | left-hand margin and encircled. This may be followed strictly.   |
| 8 | If a question does not have any parts, marks must be awarded in the left-hand margin<br>and encircled. This may also be followed strictly. |

| 9  | If a student has attempted an extra question, answer of the question deserving more  |
|----|--|
|    | marks should be retained and the other answer scored out with a note "Extra  |
|    | Question".   |
| 10 | No marks to be deducted for the cumulative effect of an error. It should be penalized  |
|    | only once.   |
| 11 | A full scale of marks 80 as given in Question Paper has to be used. Please do not hesitate   |
|    | to award full marks if the answer deserves it.   |
| 12 | Every examiner has to necessarily do evaluation work for full working hours i.e., 8  |
|    | hours every day and evaluate 20 answer books per day in main subjects and 25 answer  |
|    | books per day in other subjects (Details are given in Spot Guidelines). This is in view  |
|    | of the reduced syllabus and number of questions in question paper.   |
| 13 | Ensure that you do not make the following common types of errors committed by the  |
|    | Examiner in the past:-   |
|    | • Leaving answer or part thereof unassessed in an answer book.   |
|    | • Giving more marks for an answer than assigned to it.   |
|    | • Wrong totaling of marks awarded on an answer.  |
|    | • Wrong transfer of marks from the inside pages of the answer book to the title page.  |
|    | <ul> <li>Wrong question wise totaling on the title page.</li> <li>Wrong totaling of free file total and the title page.</li> </ul>   |
|    | <ul> <li>Wrong totaling of marks of the two columns on the title page.</li> <li>Wrong grand total</li> </ul>   |
|    | <ul> <li>Wrong grand total.</li> <li>Marks in words and figures not tallying/not some</li> </ul>   |
|    | <ul> <li>Marks in words and figures not tallying/not same.</li> <li>Wrong transfer of marks from the anguar book to online award list</li> </ul>                                   |
|    | <ul> <li>Wrong transfer of marks from the answer book to online award list.</li> <li>Answers marked as correct, but marks not awarded. (Ensure that the right tick mark</li> </ul> |
|    | is correctly and clearly indicated. It should merely be a line. Same is with the X for   |
|    | incorrect answer.)   |
|    | • Half or a part of answer marked correct and the rest as wrong, but no marks  |
|    | awarded.   |
| 14 | While evaluating the answer books if the answer is found to be totally incorrect, it   |
|    | should be marked as cross (X) and awarded zero (0)Marks  |
| 15 | Any unassessed portion, non-carrying over of marks to the title page, or totaling error  |
|    | detected by the candidate shall damage the prestige of all the personnel engaged in the  |
|    | evaluation work as also of the Board. Hence, in order to uphold the prestige of all  |
|    | concerned, it is again reiterated that the instructions be followed meticulously and   |
| 1. | judiciously  |
| 16 | The Examiners should acquaint themselves with the guidelines given in the  |
| 17 | "Guidelines for spot Evaluation" before starting the actual evaluation.  |
| 17 | Every Examiner shall also ensure that all the answers are evaluated, marks carried over<br>to the title page, correctly totaled and written in figures and words                   |
| 18 | to the title page, correctly totaled and written in figures and words.   |
| 10 | The candidates are entitled to obtain photocopy of the Answer Book on request on<br>payment of the prescribed processing fee. All Examiners/Additional Head                        |
|    | Examiners/Head Examiners are once again reminded that they must ensure that  |
|    | evaluation is carried out strictly as per value points for each answer as given in the   |

| 24 | Q. (a) 'Planning and controlling are inseparable twins of management'. Explain with the help of any three points.   |  |
|    | Ans.  |  |
|    | Planning and controlling are inseparable twins of management <i>(any three )</i>  |  |

| <b>1. Planning without controlling is meaningless and Controlling is blind without planning</b>   |                    |
|---|--------------------|
| Once a plan becomes operational, controlling is necessary to monitor<br>the progress, measure it, discover deviations and initiate corrective<br>measures to ensure that events conform to plans. So, Planning without<br>controlling is meaningless. A system of control presupposes the<br>existence of certain standards which are provided by planning.<br>Therefore, controlling is blind without planning |                    |
| 2. Planning is a prerequisite for controlling while controlling seeks to compel events to conform to plans  | 1 x 3 = 3<br>Marks |
| Without planning there is no predetermined understanding of the desired performance while controlling seeks to compel events to conform to plans  |                    |
| <b>3.</b> Planning is prescriptive while controlling is evaluative  |                    |
| Planning is basically an intellectual process involving thinking,<br>articulation and analysis to discover and prescribe an appropriate course<br>of action for achieving objectives. Controlling, on the other hand,<br>checks whether decisions have been translated into desired action.   |                    |
| 4. Planning is forward-looking while controlling is looking back  |                    |
| Planning involves looking ahead as plans are prepared for future and<br>are based on forecasts about future conditions. On the contrary,<br>controlling is like a postmortem of past activities to find out deviations<br>from the standards. In that sense, controlling is looking back.   |                    |
| 5. Controlling is forward-looking while planning is looking back  |                    |
| The corrective action in controlling seeks to improve the performance<br>in the future or to revise future plans. So, controlling is also forward<br>looking. However, it should be understood that planning is guided by<br>past experiences and the corrective action initiated by control function<br>aims to improve future performance. Thus, planning is also looking<br>back.                            |                    |

| <b>Q. (b) Explain 'Critical point control' and 'Management by exception' as discussed in the controlling process.</b><br>Ans.   |                                  |
| 1. Critical Point Control:  |                                  |
| Control should focus on key result areas (KRAs) which are<br>critical to the success of an organisation. These KRAs are set as<br>the critical points. If anything goes wrong at the critical points,<br>the entire organisation suffers.   | 1 ½ Mai                          |
| 2. Management by Exception:   |                                  |
| Management by exception, also known as control by exception,<br>is based on the belief that an attempt to control everything results<br>in controlling nothing. Thus, only significant deviations which go<br>beyond the permissible limit should be brought to the notice of   | 1 ½ Mai                          |

| 2 | Q. Ankur Sachdeva did his MBA from ITB University. He decided<br>to apply his knowledge of scientific management in the fast food<br>restaurant chain 'Coffee Bean' set up by him. This restaurant was<br>providing burgers, fries, shakes etc, as a part of its menu.   |                    |
|   | Now a days people are quality conscious, so he was using<br>standardised raw materials, processes, methods, working<br>conditions, machinery etc. The objective was to establish standards<br>of excellence. By doing this he was not only able to reduce the cost<br>but was also able to provide new varieties of burgers, fries and<br>shakes leading to increased turnover.                                  |                    |
|   | Ankur Sachdeva also believed that there was only one best method<br>to maximise efficiency. As a result he developed best way of grilling<br>burgers, cooking fries and preparing shakes. His main objective<br>was to maximise the satisfaction of customers, which he was able to<br>achieve.  |                    |
|   | Not only to learn the best way of doing a job, but to perform their<br>tasks efficiently, 'Coffee Bean' regularly invests in training and<br>development programmes to equip employees with the necessary<br>skill and knowledge. 'Coffee Bean' believed that efficient employees<br>will produce more and earn more. This will ensure their greatest<br>efficiency and prosperity for both company and workers. |                    |
