सामान्य निर्देश:

निम्नलिखित निर्देशों को ध्यानपूर्वक पढ़िए और उनका पालन कीजिए :

- (i) इस प्रश्न-पत्र में 34 प्रश्न हैं । सभी प्रश्न अनिवार्य हैं ।
- (ii) यह प्रश्न-पत्र **दो** खण्डों में विभाजित है: **खण्ड क** – समष्टि अर्थशास्त्र **खण्ड ख** – भारतीय आर्थिक विकास
- (iii) इस प्रश्न-पत्र में 20 बहुविकल्पीय प्रकार के प्रश्न हैं । प्रत्येक प्रश्न 1 अंक का है ।
- (iv) इस प्रश्न-पत्र में 4 लघु-उत्तरीय प्रकार-I के प्रश्न हैं । प्रत्येक प्रश्न 3 अंकों का है । इन प्रश्नों के उत्तर 60 से 80 शब्दों में लिखे जाने चाहिए ।
- (v) इस प्रश्न-पत्र में 6 लघु-उत्तरीय प्रकार-II के प्रश्न हैं । प्रत्येक प्रश्न 4 अंकों का है । इन प्रश्नों के उत्तर 80 से 100 शब्दों में लिखे जाने चाहिए ।
- (vi) इस प्रश्न-पत्र में 4 दीर्घ-उत्तरीय प्रकार के प्रश्न हैं । प्रत्येक प्रश्न 6 अंकों का है । इन प्रश्नों के उत्तर 100 से 150 शब्दों में लिखे जाने चाहिए ।
- (vii) प्रत्येक प्रश्न के सभी भागों के उत्तर एक साथ लिखे जाने चाहिए।
- (viii) इसके अतिरिक्त, ध्यान दें कि दृष्टिबाधित परीक्षार्थियों के लिए फोटो तथा मानचित्र आदि आधारित प्रश्नों के स्थान पर एक अन्य प्रश्न दिया गया है । इन प्रश्नों के उत्तर केवल दृष्टिबाधित परीक्षार्थी ही लिखें ।
- (ix) प्रश्न-पत्र में कोई समग्र विकल्प नहीं है । यद्यपि कुछ प्रश्नों में आंतरिक विकल्प का प्रावधान दिया गया है । इन प्रश्नों में से केवल एक ही प्रश्न का उत्तर लिखा जाए ।

17. निम्नलिखित गद्य का ध्यानपूर्वक अध्ययन कीजिए :

उत्पादन प्रक्रिया में उत्पादन के साधनों द्वारा लिए गए निर्णय प्राय: हितधारकों को अप्रत्यक्ष रूप से प्रभावित कर सकते हैं । इस प्रकार के प्रभाव कई बार अत्यंत व्यापक होते हैं परन्तु राष्ट्रीय आय का आकलन करते समय इन्हें ध्यान में नहीं रखा जाता है । अर्थशास्त्री इन्हें बाह्यताएँ कहते हैं तथा ये बाह्यताएँ सकारात्मक अथवा नकारात्मक हो सकती हैं ।

इस संबंध में, कई अर्थशास्त्री पारिस्थितिक संतुलन सुनिश्चित करने के लिए कार्बन मूल्य-निर्धारण को एक महत्त्वपूर्ण उपकरण के रूप में उपयोग करने का सुझाव देते हैं।

कार्बन मूल्य-निर्धारण या तो उत्सर्जन पर शुल्क लगाकर या कम उत्सर्जन पर सब्सिडी देकर ग्रीनहाउस गैस उत्सर्जन को नियंत्रित करने की कोशिश करता है । कार्बन कर, ग्रीन सेस, इको टैक्स, आदि जैसे साधनों के माध्यम से अर्थशास्त्री इस प्रकार की नकारात्मक बाह्यताओं को समाप्त करने वाली हरित तकनीक की ओर अग्रसर होने का सुझाव देते हैं । दिए गए गद्य तथा सामान्य समझ के आधार पर, निम्नलिखित प्रश्नों के उत्तर दीजिए :

17. Read the following text carefully :

Decisions taken by factors of production in the production process often may affect the stakeholders indirectly. Such impacts at times are huge but are not accounted for, while estimating national income. Economists call them as externalities and they can be positive or negative.

In this regard, many economists suggest carbon pricing as an important tool to ensure ecological balance.

Carbon pricing tries to control greenhouse gas emissions by either placing a fee on emitting or offering subsidies on lesser emission. Through instruments like carbon tax, green cess, eco tax, etc. economists suggest moving towards greener technology eliminating such negative externalities.

On the basis of the given text and common understanding, answer the following questions :

(i)	Define externalities.	1
(ii)	Differentiate between positive and negative externalities.	2
(iii)	Elaborate how and why carbon pricing should be promoted.	3

34. निम्नलिखित गद्य का ध्यानपूर्वक अध्ययन कीजिए :

स्वतंत्रता उपरांत भारत की औद्योगिक नीति को मुख्यत: 1948 के औद्योगिक नीति संकल्प के संदर्भ में आकार दिया गया था । इसमें राष्ट्रीय हित में उद्योगों के विकास को प्रोत्साहन देने, सहायता करने व विनियमित करने के मामले में सरकार की पूर्ण जिम्मेदारी पर बल दिया गया था । इसमें सार्वजनिक क्षेत्र के लिए एक सक्रिय व प्रमुख भूमिका की परिकल्पना की गई थी ।

अगला औद्योगिक नीति संकल्प, 30 अप्रैल, 1956 को प्रधान मंत्री द्वारा संसद के समक्ष रखा गया था । इस संकल्प ने सुझाव दिया था कि, "राष्ट्रीय उद्देश्य के रूप में अर्थव्यवस्था के समाजवादी ढाँचे को अपनाने के साथ-साथ योजनाबद्ध व तीव्र विकास की आवश्यकता है । इसके लिए यह आवश्यक है कि बुनियादी व सामरिक महत्त्व के सभी उद्योग अथवा सार्वजनिक उपयोगी सेवाएँ सार्वजनिक क्षेत्र के अधीन होने चाहिए ।

अन्य उद्योग जो अति-आवश्यक हैं तथा जिनमें बड़े पैमाने पर निवेश की आवश्यकता होती है (जो केवल राज्य ही प्रदान कर सकता है), उन्हें भी सार्वजनिक क्षेत्र के अधीन होना चाहिए । इसलिए राज्य को उद्योगों के भावी विकास के लिए प्रत्यक्ष उत्तरदायित्व ग्रहण करना होगा ।"

यह संकल्प उद्योगों को तीन श्रेणियों में वर्गीकृत करता है :

- अनुसूची A में दी गई पहली श्रेणी में ऐसे उद्योग शामिल हैं, जिनका भविष्य में विकास राज्य की विशेष जिम्मेदारी होगी ।
- दूसरी श्रेणी में, अनुसूची B में वे उद्योग दिए गए हैं जो उत्तरोतर राज्य के स्वामित्व वाले होंगे । हालाँकि, इनमें निजी उद्यम से भी भागीदारी की उम्मीद की जाएगी ।
- तीसरी श्रेणी में शेष सभी उद्योगों को शामिल किया है, जिनका आगे का विकास निजी क्षेत्र की पहल व उद्यम पर निर्भर होगा।

दिए गए गद्य तथा सामान्य समझ के आधार पर, निम्नलिखित प्रश्नों के उत्तर दीजिए :

- "भारत सरकार ने, आर्थिक विकास के प्रारंभिक वर्षों में औद्योगिक विकास में सार्वजनिक क्षेत्र के लिए बड़ी भूमिका पर बल दिया था।"
 अपने उत्तर के समर्थन में कारण देते हुए, इस कथन की पुष्टि कीजिए।
- (ii) औद्योगिक नीति संकल्प, 1956 के अनुसार विभिन्न श्रेणियों में उद्योगों के वर्गीकरण की रूपरेखा प्रस्तुत कीजिए और चर्चा कीजिए ।

34. Read the following text carefully :

India's industrial policy since independence has been shaped broadly in terms of the Industrial Policy Resolution of 1948. It emphasized on the sole responsibility of the government in the matter of promoting, assisting and regulating the development of industries in the national interest. It envisaged an active and dominant role of public sector.

The next Industrial Policy Resolution was placed before the Parliament by the Prime Minister on 30^{th} April, 1956. It suggested that, "There is a need for adoption of the socialist pattern of economy as the national objective, along with the need for planned and rapid development. It required that all industries of basic and strategic importance, or in public utility services, should be in the public sector.

Other industries which are essential and require investment on a massive scale (which only the State could provide) have also to be in the public sector. Thus, the State has to assume direct responsibility for the future development of industries."

This Resolution classifies industries into three categories :

- The first category given in Schedule A, consists of industries the future development of which will be the exclusive responsibility of the State.
- In the second category given in Schedule B, are industries which will be progressively State-owned. However, in them, private enterprise will also be expected to participate.
- The third category comprises all the remaining industries, the further development of which will be left to the initiative and enterprise of the private sector.

On the basis of the given text and common understanding, answer the following questions :

- (i) "The Government of India, in the initial years of economic development, emphasized on a greater role of the public sector in the industrial development."
 Justify the statement, giving reasons in support of your answer.
- (ii) Outline and discuss the classification of industries into various categories as per Industrial Policy Resolution, 1956.

Marking Scheme **Strictly Confidential** (For Internal and Restricted use only) Senior School Certificate Examination,2024

ECONOMICS (SUBJECT CODE – 030)

(PAPER CODE - 58/2/2)

General Instructions: -

1 You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully. "Evaluation policy is a confidential policy as it is related to the confidentiality of 2 the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC." 3 Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In Class XII, while evaluating competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded. 4 The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly. The Head-Examiner must go through the first five answer books evaluated by each 5 evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators. Evaluators will mark($\sqrt{}$) wherever answer is correct. For wrong answer CROSS 'X" be 6 marked. Evaluators will not put right (\checkmark) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing. 7 If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.

XII 030 58/2/2 Economics 2024 # Page-1

8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	 Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Giving more marks for an answer than assigned to it. Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Leaving answer or part thereof unassessed in an answer book. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the " Guidelines for spot Evaluation" before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

	Public production relates to those goods which are directly produced by the government.	1

17.	Read the following text carefully:	
	Decisions taken by factors of production in the production process often may affect the	
	stakeholders indirectly. Such impacts at times are huge but are not accounted for, while	
	estimating national income. Economists call them as externalities and they can be positive	
	or negative.	
	In this regard, many economists suggest carbon pricing as an important tool to ensure ecological balance.	
	Carbon pricing tries to control greenhouse gas emissions by either placing a fee on emitting	
	or offering subsidies on lesser emission. Through instruments like carbon tax, green cess,	
	eco tax, etc. economists suggest moving towards greener technology eliminating such	
	negative externalities.	
	On the basis of the given text and common understanding, answer the following questions:	
(i)	Define externalities.	
	Ans. Externalities refer to benefits/harms which are caused by one entity to another	1
	without being paid/ penalised for it.	
(ii)	Differentiate between positive and negative externalities.	
(11)	Ans. Positive externalities refer to benefits caused by one entity to another, without	1
	being paid for it.	I
	Whereas;	
	Negative externalities refer to the harms caused by one entity to another, without	1
	being penalised for it.	1
(iii)	Elaborate how and why carbon pricing should be promoted.	
	Ans. Carbon pricing should be promoted by either placing a fee on emitting or	
	offering subsidies on lesser emission. Through instruments like carbon tax, green cess,	3
	eco tax, etc. economy moves toward greener technology, eliminating negative	
	externalities. Hence, carbon pricing is an important tool to ensure ecological balance.

Ans. Promoting women's colucation in India is imperative for socical progress and gender equality. Educated women contribute to economic growth by entering the workforce and making informed decisions about their lives. Moreover, educating women makes a favourable impact on the fertility rate and health care of women and children. Hence, investing in women's education uplifts communities and drives sustainable development across India. It emphasized on the sole responsibility of the government in the matter of promoting, assisting and regulating the development of industries in the national interest. It envisaged an active and dominant role of public sector. The next Industrial Policy Resolution was placed before the Parliament by the Prime Minister on 30th April, 1956. It suggested that, "There is a need for adoption of the socialist pattern of economy as the national objective, along with the need for planned and rapid development. It required that all industries of basic and strategic importance, or in public utility services, should be in the public sector. Other industries which are essential and require investment on a massive scale (which only the State could provide) have also to be in the public sector. Thus, the State has to assume direct responsibility for the future development of industries." This Resolution classifies industries into three categories: The first category given in Schedule A, consists of industries the future development of which will be the exclusive responsibility of the State. In the second category given in Schedule B, are industries which will be progressively State-owned. However, in them, private enterprise will also be expected to participate. The third category comprises all the remaining industries, the further development
