	Marking Scheme
	Strictly Confidential
	(For Internal and Restricted use only)
	Senior School Certificate Examination,2023
	ECONOMICS (SUBJECT CODE – 030)
	(PAPER CODE – 58/5/2)
<u>Ger</u>	neral Instructions: -
1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
3	 Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In class-X, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers
	These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark($$) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right (\checkmark) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for

XII_030_58/5/2_Economics_2023 # Page-1

8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks 80 (example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past:-
	 Leaving answer or part thereof unassessed in an answer book. Giving more marks for an answer than assigned to it. Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Wrong totaling of marks of the two columns on the title page. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the " Guidelines for spot Evaluation " before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

12. Suppose only one Good 'X' is produced in the country. Output of Good X during year 2018 and 2019 were 100 units and 120 units respectively. The market price of the product during the two years was \gtrless 50 and \gtrless 60 per unit respectively.

Calculate the percentage change in Real Gross Domestic Product (GDP) in year 2019 using 2018 as the base year.

Ans.

13.	Explain the role of Central Bank as Governments' agent and advisor.	
(a)	Ans. As Government's agent, the Central Bank accepts receipts and makes payment on	
	behalf of the government. For instance, Central Bank issues government securities such	
	as bonds, treasury bills, etc. It makes all arrangements in connection with the floatation,	4
	conversion or redemption of these securities. It manages the national debt on behalf of the government.	
	As the Government's financial advisor, the Central Bank advises the government on all	
	economic, financial and monetary matters. (To be marked as a whole)	
	OR	
(b)	Define Reverse Repo Rate. Discuss briefly, how this instrument helps in controlling credit creation by commercial banks.	
	Ans. Reverse Repo Rate is the rate of interest at which commercial banks can park their surplus funds with the Central Bank.	1
	In order to control the credit creation capacity of the commercial banks, the Central Bank	
	may increase/decrease Reverse Repo Rate. This induces commercial banks to transfer more/less funds to the Central Bank which in turn reduces/ increases the lending capacity of the commercial banks.	3
	As a result, credit creation by commercial banks may be reduced/increased.

14.	If planned savings exceeds planned investments in an economy, explain its likely impact on income, output and employment.	
	Ans. When planned savings exceeds planned investments it means households are	4
	planning to consume less than what the firms expected them to consume.	

XII_030_58/5/2_Economics_2023 # Page-6

	This will lead to unintended accumulation of inventories. To restore the desired/intended level of inventories, producers may contract production which in turn reduces the employment, output and income level. (To be marked as a whole)	
5.	As per the following news published in "The Hindu" on 6 th August, 2022: "The Monetary Policy Committee (MPC) of the Reserve Bank of India raised the Repo Rate by 50 basis points." Identify and explain the likely cause and consequences behind this type of action taken by the	
	Reserve Bank of India. Ans. Inflation in the economy may be the cause behind the rise in repo rate by the Monetary Policy Committee (MPC) of Reserve Bank of India (RBI).	1
	This step may force commercial banks to increase the lending rates. It may discourage the borrowings by the general public. This may lead to fall in Aggregate Demand and thus may result in fall in rate of inflation. (Any other valid explanation to be allotted marks)	3

b)	"Government has started spending more on providing free services like education and health to the poor." In the light of above statement, explain how the government can use the budgetary policy in reducing 'inequalities of income'. Ans. Government's budgetary policy has two aspects- taxation and public expenditure.	
	To reduce inequalities in income and wealth, the government may adopt an expenditure policy which is in favour of lower income groups. Government expenditure on providing free services like education and health to the poor may positively affect their disposable income. Consequently, budgetary policy of the government can be used to reduce inequalities of	3
