प्रश्न-पत्र कोड Q.P. Code

63

रोल नं.				
Roll No.				

परीक्षार्थी प्रश्न-पत्र कोड को उत्तर-पुस्तिका के मुख-पृष्ठ पर अवश्य लिखें।

Candidates must write the Q.P. Code on the title page of the answer-book.

मनोविज्ञान (सैद्धान्तिक) PSYCHOLOGY (Theory)

निर्धारित समय : 3 घण्टे अधिकतम अंक : 70

Time allowed: 3 hours Maximum Marks: 70

	नोट		NOTE
(l)	कृपया जाँच कर लें कि इस प्रश्न-पत्र में मुद्रित पृष्ठ 19 हैं।	(I)	Please check that this question paper contains 19 printed pages.
(II) 	कृपया जाँच कर लें कि इस प्रश्न-पत्र में 34 प्रश्न हैं।	(II)	Please check that this question paper contains 34 questions.
(III)	प्रश्न-पत्र में दाहिने हाथ की ओर दिए गए प्रश्न-पत्र कोड को परीक्षार्थी उत्तर-पुस्तिका के मुख-पृष्ठ पर लिखें।	(III)	Q.P. Code given on the right hand side of the question paper should be written on the title page of the answer-book by the candidate.
(IV)	कृपया प्रश्न का उत्तर लिखना शुरू करने से पहले, उत्तर-पुस्तिका में प्रश्न का क्रमांक अवश्य लिखें।	(IV)	Please write down the serial number of the question in the answer-book before attempting it.

11-63 P.T.O.

सामान्य निर्देश:

- जिन प्रश्नों में आंतरिक विकल्प दिए गए हैं, उन्हें छोड़कर सभी प्रश्न अनिवार्य हैं। *(i)*
- खण्ड क : प्रश्न संख्या 1 से 15 में प्रत्येक के लिए 1 अंक निर्धारित है । आपसे निर्देशानुसार उत्तर (ii) देने की अपेक्षा की जाती है।
- खण्ड ख: प्रश्न संख्या 16 से 21 तक अति लघु-उत्तरीय प्रकार-I प्रश्न हैं, जिनमें प्रत्येक के लिए (iii) 2 अंक निर्धारित हैं । प्रत्येक प्रश्न का उत्तर 30 शब्दों से अधिक नहीं होना चाहिए ।
- खण्ड ग: प्रश्न संख्या 22 से 24 तक लघ्-उत्तरीय प्रकार-II प्रश्न हैं, जिनमें प्रत्येक के लिए 3 अंक (iv)निर्धारित हैं । प्रत्येक प्रश्न का उत्तर 60 शब्दों से अधिक नहीं होना चाहिए ।
- खण्ड घ : प्रश्न संख्या 25 से 28 तक दीर्घ-उत्तरीय प्रकार-1 प्रश्न हैं, जिनमें प्रत्येक के लिए 4 अंक (v)निर्धारित हैं । प्रत्येक प्रश्न का उत्तर 120 शब्दों से अधिक नहीं होना चाहिए ।
- खण्ड ङ : प्रश्न संख्या 29 और 30 दीर्घ-उत्तरीय प्रकार-11 प्रश्न हैं. जिनमें प्रत्येक के लिए 6 अंक (vi) निर्धारित हैं । प्रत्येक प्रश्न का उत्तर 200 शब्दों से अधिक नहीं होना चाहिए ।
- खण्ड च : प्रश्न संख्या 31 से 34 दो व्यक्ति अध्ययनों पर आधारित प्रश्न हैं । इन पर आधारित 1 (vii) अंक वाले प्रश्नों की उत्तर सीमा 20 शब्दों और 2 अंक वाले प्रश्नों की उत्तर सीमा 30 शब्दों से

	अधिक	नहीं होनी चाहिए ।		
		खण्ड व	त

25. Vimal is brought up in a society which is technologically advanced. Explain the intelligence that is adopted by him. Is it likely to be tuned by the cultural factors? Give reasons for your answer. 4 **26.** A psychologist used projective techniques to assess Rupa's personality. What are the chief features and benefits of using these tests for her, when compared to the direct methods? 4 27. Explain any four techniques used in behaviour therapy. 4 28. (a) Sakshi is a member of the school basketball team. Santosh is a member of a group of teachers that help with co-curricular activities in the school. State the key differences between Sakshi's team and Santosh's group. 4 OR. (b) Madan joined the 'Teach an Adult' group. He could fulfil his desire to help the adults who had no opportunity to study. Because of his participation in the group, he was perceived to be generous and important. Why do you think Madan joined this group? 4 SECTION E 29. (a) the interview and observation methods Discuss behavioural analysis. Describe the problems we face in using these methods. 6 OR (b) Enumerate the structure of personality with respect to Freud's theory of personality. 6 What do you understand by the term 'dissociation'? Explain its 30. (a) various forms. 6 OR.

11-63 15 P.T.O.

Describe any three neurodevelopmental disorders.

What are the common features of neurodevelopmental disorders?

(b)

खण्ड च

व्यक्ति अध्ययन-1

निम्नलिखित व्यक्ति अध्ययन पढ़कर पूछे गए प्रश्नों (प्र. 31 व 32) के उत्तर दीजिए :

अग्निशमन विभाग को एक घर में आग लगने की सूचना मिली । आग खाना बनाने के लिए इस्तेमाल किए जाने वाले गैस सिलेंडर के विस्फोट से लगी । घायल सुमन अस्पताल के बिस्तर पर पड़ी थी । वह प्रेस संवाददाता से बात कर रही थी । उसने बताया कि घटना के समय उसकी माँ रसोईघर में थी । एक तेज़ आवाज के साथ सिलेंडर फट गया और आग तेज़ी से फैल गई । घर के निकास द्वार में भी आग लग गई थी । उसकी माँ जैसे सारी आशाएँ खोकर घबराहट में चिल्लाने लगी और रसोईघर में ही बेहोश हो गई । सुमन अपनी माँ को बचाने के लिए कृत संकल्प थी। उसने कहा, "मैं नहीं जानती कि अपनी माँ को कमरे तक खींचने की शक्ति मुझमें कैसे आई । मैंने वहाँ की खिड़की तोड़ दी और बाहर कूद गई । यद्यपि मेरी पीठ पर चोट लग गई थी तथापि बिना समय नष्ट किए मैंने अपने पड़ोसी से मदद माँगी और अपनी माँ को बचा लिया । मुझे खुशी है कि हम दोनों सुरक्षित हैं।" उसकी कहानी सुनकर प्रेस संवाददाता उसकी वीरता से प्रभावित हुआ ।

- सामान्य अनुकूलन संलक्षण (GAS) मॉडल का वर्णन करते हुए बताइए कि अग्नि (हानिकर 31. उद्दीपक) का सुमन की माँ पर तत्काल क्या प्रभाव पड़ेगा ?
- आग फैलते समय सुमन और उसकी माँ लंबे समय तक दबाव में रही । सामान्य अनुकूलन **32.** संलक्षण मॉडल, सुमन और उसकी माँ की स्थिति को कैसे समझाता है ?

व्यक्ति अध्ययन-2

निम्नलिखित व्यक्ति अध्ययन पढ़कर पूछे गए प्रश्नों (प्र. 33 व 34) के उत्तर दीजिए :

सोफ़िया दलीप सिंह पंजाब के अंतिम सिख सम्राट महाराजा दलीप सिंह की बेटी थी । सोफ़िया लंबे समय से महिला मताधिकार आंदोलन (मत/वोट देने का अधिकार) की समर्थिका थी और ब्रिटेन में महिला अधिकारों को लेकर अभिवृत्ति बदलने के लिए अग्रणी प्रचारक थी। हालाँकि लोगों को उनके बारे में ज्यादा जानकारी नहीं है।

सन् 1910 में वह 300 महिला मताधिकार का समर्थन करने वाले एक प्रतिनिधिमंडल का हिस्सा थी, जिसने लंदन में संसद की ओर मार्च किया था । प्रधानमंत्री ने महिलाओं से मिलने से मना कर दिया और इमारत के बाहर खड़ी भीड़ में पुलिसकर्मियों और पुरुषों द्वारा उन्हें पीटे जाने पर यह प्रदर्शन हिंसक हो गया । कई प्रदर्शनकारी गंभीर रूप से घायल हो गए और उस दिन को ब्रिटेन में ब्लैक फ्राइडे कहा जाने लगा । सोफ़िया उन 119 महिलाओं में शामिल थी, जिन्हें गिरफ्तार किया गया था।

SECTION F

Case Study-1

Read the case study given below and answer the questions (Q. 31 and 32) that follow:

The fire department received a call about a fire that swept through a house. The fire started with the explosion of a gas cylinder used for cooking. The injured Suman was lying on a hospital bed. She was talking to a press reporter. She expressed that her mother was in the kitchen when the incident occurred. The cylinder burst with a loud sound and the fire spread at great speed. The exit door of the house had also caught fire. Her mother shouted in panic as if she had lost all hope, and she fainted in the kitchen. However, Suman was determined to save her mother. She said "I don't know how I got the energy to drag my mother to the room. I broke the window there and jumped out. My back got hurt, but without wasting any time, I sought the help of my neighbour and rescued my mother. I am happy that we are both safe." Hearing her story, the press reporter was impressed with her chivalry.

- 31. Referring to the General Adaptation Syndrome (GAS) model, what immediate impact does the fire (noxious stimulus) have on Suman's mother?
- 32. Suman and her mother were exposed to prolonged stress as the fire spread. How does the General Adaptation Syndrome model explain Suman and her mother's condition?

Case Study-2

Read the case study given below and answer the questions (Q. 33 and 34) that follow:

Sophia Duleep Singh was the daughter of Maharaja Duleep Singh the last Sikh emperor of Punjab. Sophia was a long-time supporter of the Women's Suffrage movement (right to vote) and a leading campaigner for changing attitudes about women's rights in Britain. However, she remains a little-known figure.

In 1910, she was part of a delegation of 300 suffragettes who marched towards the Parliament in London. The Prime Minister refused to meet the women and the demonstration turned violent as policemen and men in the crowd outside the building beat them. Many of the demonstrators were seriously injured and the day came to be called Black Friday in the UK. Sophia was among the 119 women who were arrested.

1

Sophia transcended her heritage to devote herself to battling injustice and inequality. Her main causes were the struggle for Indian Independence, the welfare of Indian soldiers in the First World War — and, above all, the fight for female suffrage. Princess Sophia supported Indians, particularly women, throughout her life.

- 33. 'Her causes were the struggle for Indian independence, the welfare of Indian soldiers in the First World War and, above all, the fight for female suffrage.' All of these attitudes were present within a broader attitude, i.e., the attitude against injustice and inequality. Explain the feature specified here.
- **34.** The characteristics of the existing attitude (towards women's right to vote) influence the attitude change. To what extent could these have helped Sophia bring about the change in attitude towards women's right to vote?

Marking Scheme Strictly Confidential (For Internal and Restricted use only) Senior School Certificate Examination, 2024 SUBJECT NAME PSYCHOLOGY (Q.P. CODE 63)

Gen	<u>eral Instructions: -</u>
1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	"Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, Evaluation done and several other aspects. Its' leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in News Paper/Website etc may invite action under various rules of the Board and IPC."
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one's own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In class-X, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after delibration and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark(√) wherever answer is correct. For wrong answer CROSS 'X" be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. This is most common mistake which evaluators are committing.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totaled up and written in the left-hand margin and encircled. This may be followed strictly.
8	encircled. This may also be followed strictly
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note "Extra Question".

63

P.T.O.

	그렇게 있는 그는
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks(example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines). This is in view of the reduced syllabus and number of questions in question paper.
13	Ensure that you do not make the following common types of errors committed by the Examiner in the past:- Leaving answer or part thereof unassessed in an answer book. Giving more marks for an answer than assigned to it. Wrong totaling of marks awarded on an answer. Wrong transfer of marks from the inside pages of the answer book to the title page. Wrong question wise totaling on the title page. Wrong totaling of marks of the two columns on the title page. Wrong grand total. Marks in words and figures not tallying/not same. Wrong transfer of marks from the answer book to online award list. Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.)
14	 Half or a part of answer marked correct and the rest as wrong, but no marks awarded. While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any un assessed portion, non-carrying over of marks to the title page, or totaling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the "Guidelines for spot Evaluation" before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totaled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.

	Improving relationship	A Contraction	

	 Self- care Overcoming unhelpful habits (Description of any three of the above or any other relevant life skills) 		
Q24 a)	 Abnormal behavior is deviation from social norms - Society that values competition & assertiveness may accept aggressive behavior whereas one that emphasizes cooperation and family values may consider it as unacceptable. Abnormal behavior is maladaptive - Many psychologists believe that best verification for determining the normality of behavior is whether it fosters the wellbeing of the individual and eventually of the group to which he belongs. (Any other relevant explanation and example). OR 		1.5+1.5=3
b)	 No Symptoms of separation anxiety disorder Fearful and anxious about separation from attachment figures to an extent that is developmentally not appropriate Difficulty in being in a room by themselves/going to school alone/fearful of entering new institution/ cling to & shadow their parents' every move To avoid separation they may fuss, scream, throw severe tantrum or make suicidal gestures (any two of the above symptoms) 		1+2=3
	SECTION - D		
Q25.	Technologically advanced societies foster skills of generalization and abstraction, speed, minimal moves, and mental manipulation among children. This can be	15 -16	1+1.5+1.5=4

called technological intelligence, which is also individualistic. This is present in Vimal.

Vimal's intelligence is likely to be tuned by these cultural parameters.

- The unique features of culture now find some representation in theories of intelligence.
 Sternberg's notion of contextual or practical intelligence implies that intelligence is the product of culture.
- Vygotsky also believed that cultures like individuals have a life of their own; they grow and change, and in the process, specify what will be the end product of successful intellectual development.
- According to him, while elementary mental functions (eg. Crying, attending to mother's voice, sensitivity to smells, walking and running) are universal, the manner in which higher mental function such as problem solving and thinking operate are largely culture-produced.
- Technologically advanced societies, skills of generalization and abstraction, speed, minimal moves, and mental manipulation among children. These societies promote a type of behavior, which can be called technological intelligence.
- In these societies, persons are well-versed in skills of attention, observation, analysis, performance, speed and achievement orientation. Intelligence tests developed in Western culture look precisely for these skills in an individual.
 (any two of the above)

Q26.	Following are the features of Projective techniques:	43-44	3+1=4
	The stimuli are relatively or fully unstructured		
	and poorly defined		1.47
	The person being assessed is usually not told
