1. Read the following passage carefully :

10

- (1) Plastic pollution has become one of the most pressing environmental issues, as rapidly increasing production of disposable plastic products overwhelms the world's ability to deal with them. Plastic pollution is most visible in developing Asian and African nations, where garbage collection systems are often inefficient or nonexistent. But the developed world, especially in countries with low recycling rates, also has trouble properly collecting discarded plastics. Plastic trash has become so ubiquitous that it has prompted efforts to write a global treaty negotiated by the United Nations.
- (2) Plastics made from fossil fuels are just over a century old. Production and development of thousands of new plastic products accelerated after World War II. It transformed the modern age so much that life without plastics is unrecognizable today. Plastics revolutionized medicine with life-saving devices, made space travel possible, lightened cars and jets — saving fuel and pollution — and saved lives with helmets, incubators, and equipment for clean drinking water.
- (3) The conveniences plastics offer, however, led to a throw-away culture that reveals the material's dark side : today, single-use plastics account for 40 percent of the plastic produced every year. Many of these products, such as plastic bags and food wrappers, have a lifespan of mere minutes to hours, yet they may persist in the environment for hundreds of years.
- (4) Most of the plastic trash in the oceans, Earth's last sink, flows from land. Trash is also carried to sea by major rivers, which act as conveyor belts, picking up more and more trash as they move downstream. Once at sea, much of the plastic trash remains in coastal waters. But once caught up in ocean currents, it can be transported around the world.

2/4/2-14

2

- (5) Millions of animals are killed by plastics every year, from birds to fish to other marine organisms. Nearly 700 species, including endangered ones, are known to have been affected by plastics. Nearly every species of seabirds eats plastics. Most of the deaths of animals are caused by entanglement or starvation. Seals, whales, turtles, and other animals are strangled by abandoned fishing gear or discarded six-pack rings.
- (6) The solution is to prevent plastic waste from entering rivers and seas in the first place, many scientists and conservationists — including the National Geographic Society — say. This could be accomplished with improved waste management systems and recycling, better product design that takes into account the short life of disposable packaging, and reduction in manufacturing of unnecessary single-use plastics.

Answer the following questions, based on the above passage :

- (i) Which of the following statements best describes the reason why plastic pollution has become one of the most pressing environmental issues ?
- (A) Plastic trash collection systems have become inefficient or nonexistent.
- (B) Rapidly increasing production of disposable plastic products overwhelms the world's ability to deal with them.
- (C) Some plastics have a lifespan of mere minutes to hours, yet they may persist in the environment for hundreds of years.
- (D) The developed world, especially in countries with low recycling rates, has trouble properly collecting plastics.

1

- (ii) What is the tone of the writer in the given lines from paragraph 2 ? Rationalise your response in about 40 words.
'It transformed the modern age so much that life without plastics is unrecognizable today.' 2
- (iii) The passage includes some words that are opposites of each other. From the sets (A) – (E) below, identify two sets of synonyms. 1
- (A) garbage and trash
 - (B) starvation and strangled
 - (C) disposable and reduction
 - (D) persist and downstream
 - (E) transformed and revolutionized
- (iv) Complete the sentence appropriately : 1
- The writer says that most of the plastic trash is found in the Earth's last sink and the reason it is transported around the world is _____.
- (v) Based on the reading of the passage, examine, in about 40 words, the downside of the convenience that plastic offers. 2
- (vi) Complete the sentence appropriately : 1
- According to conservationists, the two ways in which most of the deaths of animals are caused are _____.
- (vii) Based on the passage, how can we contribute to the reduction of plastic waste ? 1
- (A) by internationalising the waste management system
 - (B) by minimizing the use of single-use plastics
 - (C) by not abandoning fishing gear
 - (D) by not using helmets made of plastic
- (viii) State one reason why plastic pollution is most visible in developing Asian and African nations. 1

2. Read the following passage carefully :

10

- (1) Rotation of crops is a universal phenomenon which is practised by most of the farmers of the tropical and temperate countries. The main objective of rotation of crops is to obtain higher agricultural returns on the one hand, and to maintain the soil fertility on the other.
- (2) In other words, the rotation of crops helps in making agriculture more sustainable. The importance of crop rotation is more in the areas where farmers grow two, or more than two crops in the same field in a year. Irrigation facilities have also been appreciably developed in the country during the last three decades. The availability of water to the arable land has helped in the intensification of agriculture.
- (3) In the areas such as Punjab and Haryana, where the Green Revolution is a big success, one soil exhaustive crop (rice) is followed by another soil exhaustive crop (wheat). Subsequently, the field vacated by wheat is devoted to either rice or maize or cotton. Thus, in one year, the farmers are harvesting three soil exhaustive crops from the same field. Such a rotation of crops may fetch more income to the farmers, but depletes the soil fertility at a faster pace.
- (4) A number of field studies were conducted to assess the traditional crop rotation pattern. One such field study about the changes in the rotation of crops was conducted in the village Banhera (Tanda), Haridwar district. The main rotation of crops of the village is shown in the table below.

1965	Fallow	Wheat	Fallow	210

Answer the following questions, based on the above passage :

- (i) Fill in the blanks with the appropriate option from those given in brackets, based on your understanding of para 2. 1
- One of the reasons that there has been an intensification of agriculture in the country is the development of irrigation facilities is a/an _____ (fact/opinion) because it is a/an _____ (subjective judgement/objective detail).
- (ii) Based on your understanding of paras 1 and 2, state whether the following statement is true or false. 1
- If proper irrigation facility is provided, higher agricultural returns can be obtained by making crop rotation more sustainable.
- (iii) Justify the following in about 40 words. 2
- Crop rotation may fetch more income to the farmers, but depletes the soil fertility at a faster pace.
- (iv) Based on the table, mention the years when the land was left fallow for maximum number of days. 1

- (v) The study conducted in village Banhera (Tanda) reflects that during the years 1960 to 1965, from April to June, the land was left fallow or uncultivated throughout. State any one inference that can be drawn from this. 1
- (vi) Select the option that correctly states the significance of crop rotation as given below : 1
- (1) Crop rotation is done to obtain higher agricultural returns.
 - (2) Higher agricultural returns can be obtained by harvesting soil-exhaustive crops.
 - (3) Crop rotation demands that land should be left fallow for a few months to increase the fertility of soil.
 - (4) Better irrigation facility to the arable land has helped in the intensification of agriculture.
 - (5) If crops to be harvested are chosen wisely, crop rotation can help in maintaining fertility of soil.
- Options :
- (A) (1), (2) and (4)
 - (B) (1) only
 - (C) (3) and (5)
 - (D) (1) and (5)
- (vii) Crop rotation is helping in making agriculture more sustainable. Mention one benefit and one drawback of crop rotation. (Answer in about 40 words) 2
- (viii) Which of the following is the main takeaway from the study mentioned in the passage ? 1
- (A) The study needs to include more valid data to support the practice of crop rotation.
 - (B) Crop rotation is a sustainable practice that can transform the agricultural sector.
 - (C) The impact of crop rotation on farmer's upliftment has been thoroughly explained.
 - (D) Crop rotation is independent of the type of crops harvested and availability of water for irrigation.

Marking Scheme
Strictly Confidential
(For Internal and Restricted use only)
Secondary School Examination, 2024
SUBJECT NAME ENGLISH (LANGUAGE AND LITERATURE) (184)
(Q.P. CODE – 2/4/2)

General Instructions: -

1	You are aware that evaluation is the most important process in the actual and correct assessment of the candidates. A small mistake in evaluation may lead to serious problems which may affect the future of the candidates, education system and teaching profession. To avoid mistakes, it is requested that before starting evaluation, you must read and understand the spot evaluation guidelines carefully.
2	“Evaluation policy is a confidential policy as it is related to the confidentiality of the examinations conducted, evaluation done, and several other aspects. Its leakage to public in any manner could lead to derailment of the examination system and affect the life and future of millions of candidates. Sharing this policy/document to anyone, publishing in any magazine and printing in Newspaper/Website etc may invite action under various rules of the Board and IPC.”
3	Evaluation is to be done as per instructions provided in the Marking Scheme. It should not be done according to one’s own interpretation or any other consideration. Marking Scheme should be strictly adhered to and religiously followed. However, while evaluating, answers which are based on latest information or knowledge and/or are innovative, they may be assessed for their correctness otherwise and due marks be awarded to them. In class-X, while evaluating two competency-based questions, please try to understand given answer and even if reply is not from marking scheme but correct competency is enumerated by the candidate, due marks should be awarded.
4	The Marking scheme carries only suggested value points for the answers. These are in the nature of Guidelines only and do not constitute the complete answer. The students can have their own expression and if the expression is correct, the due marks should be awarded accordingly.
5	The Head-Examiner must go through the first five answer books evaluated by each evaluator on the first day, to ensure that evaluation has been carried out as per the instructions given in the Marking Scheme. If there is any variation, the same should be zero after deliberation and discussion. The remaining answer books meant for evaluation shall be given only after ensuring that there is no significant variation in the marking of individual evaluators.
6	Evaluators will mark(√) wherever answer is correct. For wrong answer CROSS ‘X’ be marked. Evaluators will not put right (✓) while evaluating which gives an impression that answer is correct and no marks are awarded. This is the most common mistake which evaluators commit.
7	If a question has parts, please award marks on the right-hand side for each part. Marks awarded for different parts of the question should then be totalled up and written in the left-hand margin and encircled. This may be followed strictly.
8	If a question does not have any parts, marks must be awarded in the left-hand margin and encircled. This may also be followed strictly.
9	If a student has attempted an extra question, answer of the question deserving more marks should be retained and the other answer scored out with a note “Extra Question”.
10	No marks to be deducted for the cumulative effect of an error. It should be penalized only once.
11	A full scale of marks _____(example 0 to 80/70/60/50/40/30 marks as given in Question Paper) has to be used. Please do not hesitate to award full marks if the answer deserves it.
12	Every examiner has to necessarily do evaluation work for full working hours i.e., 8 hours every day and evaluate 20 answer books per day in main subjects and 25 answer books per day in other subjects (Details are given in Spot Guidelines).This is in view of the reduced syllabus and number of questions in question paper.

13	<p>Ensure that you do not make the following common types of errors committed by the Examiners in the past:-</p> <ul style="list-style-type: none"> • Leaving answer or part thereof unassessed in an answer book. • Giving more marks for an answer than assigned to it. • Wrong totalling of marks awarded on an answer. • Wrong transfer of marks from the inside pages of the answer book to the title page. • Wrong question wise totaling on the title page. • Wrong totaling of marks of the two columns on the title page. • Wrong grand total. • Marks in words and figures not tallying/not same. • Wrong transfer of marks from the answer book to online award list. • Answers marked as correct, but marks not awarded. (Ensure that the right tick mark is correctly and clearly indicated. It should merely be a line. Same is with the X for incorrect answer.) • Half or a part of answer marked correct and the rest as wrong, but no marks awarded.
14	While evaluating the answer books if the answer is found to be totally incorrect, it should be marked as cross (X) and awarded zero (0)Marks.
15	Any unassessed portion, non-carrying over of marks to the title page, or totalling error detected by the candidate shall damage the prestige of all the personnel engaged in the evaluation work as also of the Board. Hence, in order to uphold the prestige of all concerned, it is again reiterated that the instructions be followed meticulously and judiciously.
16	The Examiners should acquaint themselves with the guidelines given in the “Guidelines for spot Evaluation” before starting the actual evaluation.
17	Every Examiner shall also ensure that all the answers are evaluated, marks carried over to the title page, correctly totalled and written in figures and words.
18	The candidates are entitled to obtain photocopy of the Answer Book on request on payment of the prescribed processing fee. All Examiners/Additional Head Examiners/Head Examiners are once again reminded that they must ensure that evaluation is carried out strictly as per value points for each answer as given in the Marking Scheme.
