Q.P. Code **2/1/2**

Roll	No.						
	} !]	 	ļ		ļ	
	;	i	<u></u>	-	<u></u>	<u></u>	<u></u>

Candidates must write the Q.P. Code on the title page of the answer-

ENGLISH (Language and Literature)

Time allowed: 3 hours

Maximum Marks: 80

- Please check that this question paper contains 15 printed pages.
- Q.P. Code number given on the right hand side of the question paper should be written on the title page of the answer-book by the candidate.
- Please check that this question paper contains 11 questions.
- Please write down the Serial Number of the question in the answerbook before attempting it.
- 15 minutes time has been allotted to read this question paper. The question paper will be distributed at 10.15 a.m. From 10.15 a.m. to 10.30 a.m., the candidates will read the question paper only and will not write any answer on the answer-book during this period.

2/1/2

 $P.T.O.* \land$

General Instructions:

Read the instructions very carefully and strictly follow them:

- (i) This question paper comprises 11 questions. All questions are compulsory.
- (ii) The question paper contains **THREE** sections –

Section - A: Reading Skills

Section – **B**: Grammar and Creative Writing Skills

Section – C: Literature

(iii) Attempt questions based on specific instructions for each part.

Section - A

20

Reading Skills

- 1. Read the passage given below:
 - (1) If you're like most kids, you may love snow. Not only can it get you out of school, but it's also fun to play with. Who doesn't love to sled and build snowmen? Snow can also be dangerous, too. You may have heard your parents talk about how difficult it can be to drive in snow. Car accidents aren't the only dangers created by snow, though. If you're ever skiing in the mountains, you'll want to be aware of avalanches. An avalanche is a sudden flow of snow down a slope, such as a mountain. The amount of snow in an avalanche will vary based on many things, but it can be such a huge amount that it can bury the bottom of a slope in dozens of feet of snow.

2/1/2

*^

- (2) Avalanches can be caused by many things. Some of them are natural. For example, new snow or rain can cause built up snow to loosen and fall down the side of a mountain. Earthquakes and the movement of animals have also been known to cause avalanches. Artificial triggers can also cause avalanches. For example, snowmobiles, skiers, gunshots and explosives have all been known to cause avalanches. Avalanches usually occur during the winter and spring, when snowfall is greatest. As they are dangerous to any living beings in their path, avalanches have destroyed forests, roads, railroads and even entire towns.
- (3) Warning signs exist that allow experts to predict and often prevent avalanches from occurring. When over a foot of fresh snow falls, experts know to be on the lookout for avalanches. Explosives can be used in places with massive snow build-ups to trigger smaller avalanches that don't pose a danger to persons or property. When deadly avalanches do occur, the moving snow can quickly reach over 80 miles per hour. Skiers caught in such avalanches can be buried under dozens of feet of snow. While it's possible to dig out of such avalanches, not all are able to escape.
- (4) If you get tossed about by an avalanche and find yourself buried under many feet of snow, you might not have a true sense of which way is up and which way is down. Some avalanche victims have tried to dig their way out, only to find that they were upside down and digging themselves farther under the snow rather than to the top! Experts suggest that people caught in an avalanche try to "swim" to the top of the moving snow to stay close to the surface. Once the avalanche stops, do your best to dig around you to create a space for air, so you can breathe easier. Then, do your best to figure out which way is up and dig in that direction to reach the surface and signal rescuers.

2. Read the passage given below.

 $10 \times 1 = 10$

- (1) Increasing of traffic congestion every year is causing increasing of air pollution, wasting of time and productivity and diverse respiratory diseases. Moreover, the cost of solving or reducing traffic congestion is enormous. However, neglecting the traffic jam problem would increase the social problems among citizens.
- (2) The number of vehicles has increased considerably in the city in the past five years. Due to this increase, the city roads witness frequent traffic congestions, but above all, the vehicles emitting pollutants are affecting the environment adversely.
- (3) The Capital's vehicular population saw an addition of more than five lakh vehicles last year, registering an increase of over 4%, according to the Delhi Economic Survey 2020-21.
- (4) In spite of largest road network, through metro and bus services, the transport system is not being able to keep pace with the growing demand, as a result of which, more and more people use their private vehicles, leading to increased congestion on the roads, still people in India prefer road travel over air and other means of travel.
- (5) Citizens of Delhi/NCR have, time and again, pondered over the possibilities of how to reduce the traffic congestion in the city, especially during the peak hours. People should use public transport, the government must increase the facilities of public transport, people should avoid the unnecessary collection of vehicles and should use carpool and vehicle sharing.
- (6) What is required is proper implementation of corrective measures by citizens to get an organized traffic management system.

2/1/2 5 P.T.O.*^

- (i) Infer one reason for the following, based on information in paragraph 1. Reducing traffic congestion is not easy.
- (ii) Select the appropriate option to complete the following sentence:

The reasons for increased traffic congestion are _____.

- 1. use of private vehicals
- 2. increase in demand for cars
- 3. inability to keep pace with population control
- 4. travelling by public transport
- 5. emission of pollutants
 - (a) 4, 5
- (b) 1, 5
- (c) 1, 2
- (d) 2, 3
- (iii) Complete the following analogy correctly with a word / phase from paragraph 5.

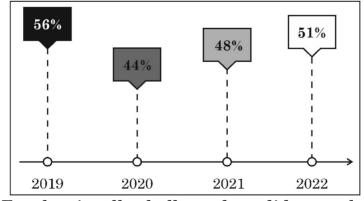

organized : chaotic : : lowest : _____

(Clue: Just as organized is an antonym of chaotic, lowest is an antonym of ______.)

- (iv) The vehicles emit pollutants which affect _____ badly.
- (v) Complete the following sentence.

Use of public transport will reduce _____.

- (vi) Select the appropriate option which states the methods of reducing traffic congestion.
 - 1. start car pooling
 - 2. add electric buses
 - 3. increase in public modes of transport
 - 4. increase car collection points
 - 5. Increase taxation
 - (a) 1, 4, 5
- (b) 3, 5
- (c) 2, 3, 4
- (d) 1, 3
- (vii) Analyse the status of traffic between the years 2019-2022.

For the visually challenged candidates only.

(vii) What is required to get an organized traffic management system?

Literature

- 6. Attempt any **one** of the given extracts:
 - (a) Let me put this more clearly, since no one will believe that a thirteen-year old girl is completely alone in this world. And I'm not. I have loving parents and a sixteen years old sister, and there are almost thirty people I can call friends. I have a family, loving aunts and a good house. No, on the surface I seem to have everything, except my one true friend. All I think about when I am with friends is having a good time. I can't bring myself to talk about anything, but ordinary everyday things. $5 \times 1 = 5$
 - (i) On the surface, it appears that Anne the thirteen year old girl _____.
 - (ii) How can we infer that the speaker felt alone in the world?
 - (a) She had a family of many people.
 - (b) She had loving parents.
 - (c) She had thirty friends.
 - (d) She craves for a true friend.
 - (iii) Anne and her friends talked about _____.
 - (a) their problematic parents (b) their financial problems
 - (c) common everyday things (d) the commuting problems
 - (iv) Complete the analogy by selecting the suitable word from the text:

alone: friends:: nothing:
