- The working capital requirements of Indian logistics are LESS.

- This is because it is a service company and does not need to maintain adequate levels of inventories.

- The marketing management philosophy being followed is THE SOCIETAL CONCEPT.

- No, Sonika cannot appeal against the decision of the district because the appeal can be made to the State Commission within 30 days of the passing of the judgement by the District Forum.

- Every individual has a different purpose for joining the organisation. But as members of the organisation, all individuals strive to achieve the organisational goals. Therefore, management recruits

the personal objectives with the organisational objectives harmony in the organisation. It thereby helps the individuals achieve their personal goals while contributing to the goals.

Ans 5 - The function of Management discussed is ORGANISATION.

Ans 6 - Cost of Debt refers to the rate of interest payable on debt. If the interest rate is low, then a company can use debt in the capital structure. However, in case the interest on debt is high, then a company will make use of Equity.

Debt is the cheapest source of finance because the interest on debt is a tax deductible expense.

Coordination means the process by which a manager synchronizes the efforts of the different departments. Coordination is regarded as the Essence of Management. It is inherent and implicit managerial functions.

Planning refers to the process of setting objectives for a given period, 'identifying' the course of action to achieve them, then selecting the best possible alternative from among various courses available. It seeks to bridge the gap between where we are and where we want to go. It is concerned with both the means and the ends.

9 - Divisional Structure refers to an organisational design which consists of separate business units or divisions. All the divisions have to report to a Divisional Head. Manpower is generally grouped on the basis of different products manufactured.

Advantages of Divisional Structure

1) Product Specialisation

Divisional structure leads to product specialisation. The divisional head is able to gain experience in all functions related to a particular product. This helps preparing the divisional heads for higher position.

2) Greater Accountability

Divisional heads can be held accountable for the profits as the revenues and costs related to different departments can be easily identified and assigned to them. This provides a proper basis for performance measurement.

DIVISIONAL STRUCTURE

Ans 10

Following are the functions of Financial Market: →

- ① Channe Mobilisation of Savings and Channelling them into most productive uses.
Financial Markets provide to the investors the choice of different investments and helps to channelise the ~~pro~~ funds into their most productive investment avenues. This leads to greater productivity for the economy and promotes the flow of savings and investments.

2) Providing Liquidity to the Financial Assets .

The Financial Market provides a mechanism financial assets can be bought or sold. This provides liquidity to the financial assets as they can be converted into cash whenever required .

3) Reducing the Cost of Transactions .

Financial Markets help to save the time & money of the investors and the firms that would have been trying to find each other. It provides a common place where the buyers and sellers can meet for the fulfilment of their individual needs .

Ans 11

(a) The Communication barrier discussed is **SEMANTIC BARRIERS**

Ans 11 (a) The communication barrier discussed is Badly Expressed Message.

(b) The category of this communication barrier is Semantic Barriers.

(c) Faulty Translations —

Sometimes, the communication drafted in a language (eg English) needs to be translated into a language ~~understandable~~ understandable by the workers. (for e.g. Hindi). Therefore, the translator has to be proficient in both the languages so that the instructions are effectively communicated.

Ans 12 Product related factors affect the choice of channel distribution in the following ways: —>

(1) Nature of the Product

If the product is an industrial product, then it is technical, made to order and has a few number of buyers.

Cases, shorter distribution channels are used. In case of consumer products that are standard, inexpensive, and required by a large number of people. For such products; longer distribution channels with a number of intermediaries are used.

(2) Perishable v/s Non Perishable Products

Perishable products like fruits, vegetables, etc. require shorter channels of distribution because they have to be distributed immediately. Non-perishable products like toiletries, grocery products and other consumer goods require longer channels of distribution.

(3) Unit Value of the Product

If the unit value of the product is high (e.g. gold, diamonds, etc.), shorter distribution channels are used. If the unit value of the product is less, large numbers of intermediaries can be used to distribute the product. Longer channels are used for products like newspapers, etc.

(4) Technical V/S Non Technical Products —

Technical products requiring huge technical details req. shorter distribution channels as opposed to Non technical products which are distributed through ~~also~~ longer channels.

Ans 13 The style of leadership adopted by Pramod is
DEMOCRATIC LEADERSHIP

- 1) In this style of leadership, the leader never gives order without working out in advance the goals of the organization.
- 2) This style of leadership is known as ~~Subor~~ Group Centered leadership.
- 3) The leader favours the decision making by the group.
- 4) It gives dual benefits: —

(a) It increases the morale and the motivation of as they develop a sense of acceptance and feel that jobs are important

(b) It helps the leaders to take better decisions

A is the Leader

Democratic or Participative Leadership

Ans 14 Principles of Management are broad and general guidelines for the decision making and the behaviour of managers.

Its Importance can be elucidated as :-

(A) Providing Managers with Useful Insights into the Real World Situations. Principles of management provide managers with useful insights into the real world situations. Adherence to these principles add to their knowledge, ability and understanding of circumstances. It enables them to learn from past mistakes and conserve time by solving ~~new~~ recurring problems.

(B) Management Training, Education and Research. Principles of Management are at the core of the Management theory. They are the basis of management training, education and research. Entrance to management institutes are preceded by management aptitude tests. These tests could not have

developed without proper understanding of these Professional courses like BBA, MBA teach these principles as part of their curriculum and techniques like Operations Research and Cost Accounting has developed due to these principles

(C) Fulfilling Social Responsibility

The increased awareness of the public forces business especially limited companies to fulfill their social responsibilities. Management theory and principles have evolved to respond to these demands. Value to the customer, fair dealings and care for the environment all come under the purview of this importance.

Ans 15 (A) Right to Safety

1) The consumer has a right to be protected against the products or services that are hazardous to his life and health.

2) For eg - A consumer should look for ISI mark while purchasing the electrical appliances for quality assurance. Such precaution can ensure the safety of the customer.

(B) Right to be Heard

1) A consumer has the right to file a complaint or to be heard in case of dissatisfaction with a product or service.

2) It is for this reason that enlightened businesses have customer complaints and grievance centers for the redressal of such complaints.

Ans 16 (a) The money market instrument that can be used for this purpose is Commercial Paper.

Commercial Paper are short term, unsecured promissory note, negotiable and transferrable by endorsement and delivery within a fixed maturity period.

(b) The duration for which the company can get funds through this instrument is One day to Fifteen days. It is a short term source of fund.

Ans 17 (a) The principle of Management applied for the of the programme is Espirit De Corps.

(b) Features of Management highlighted are :-

(1) Management is a group activity

Every individual has a different purpose for joining the ~~Homener~~; as members of the organisation, all the individual work with focused and coordinated efforts to achieve goals of the organisation. It ensures that the individual is directed towards the ~~attainment~~ attainment of the goals.

(2) Management helps in improving performance

(2)

Management is a goal oriented process

Every organisation has a set of goals to achieve which is a basic reason for its existence. Management translates the goals in terms of objectives to be achieved and assigns the means to achieve them.

(c) Values communicated are :-

(1) Holistic Development of the students :-

Aapka Vidyalaya focused on the holistic development of the students. This will enable them to develop excellence in different areas like curricular, co-curricular and sports activities.

(2) Concern for the Environment

Aapka Vidyalaya shows concern for the environment by using recycled paper for decoration instead of plastic decorations.

Ans 18

The supervisor can use TRAINING to make workers handle their work independently.

Benefits of Training to the workers are :-

- (1) Training makes the workers better equipped to use the machines and handle them; thus they are less prone to accidents.
- (2) Training increases the morale of the employees and reduces absences.
- (3) Training increases the efficiency of the employees and in their performance. Efficient employees produce more and earn more.

Ans 19 (a) The concept used by Samir Gupta to steer his company to greater heights is Decentralisation.

(b) The importance of decentralisation can be elucidated

Quick decision Making

decentralisation, the decisions are taken at the lower levels which are nearest to the points of action; there is no need for approval by many levels. The process is much faster. As there are less chances of the information getting distorted as they, it does not have to pass through longer channels.

Cue to Top Management

centralisation minimises the amount of direct supervision that is exercised by the superior over the subordinates as they are given freedom to act and decide in the limits set by the superior. It gives more time to the superior to focus on important policy decisions rather than occupying themselves with policy and operational decisions.

(C) Develops Initiative among the subordinates

It promotes self reliance and confidence among the subordinates. When the subordinates are given freedom to take their own decisions; they learn to depend upon their own judgment. It enables them to face situations where they are challenged and have to look for solutions for the problems they encounter.

Ans 20 The importance of Delegation of Authority can be highlighted as :-

① Effective Management

By empowering the employees, the managers are able to function much more efficiently as they get more time to focus on important matters. This leads to efficient management.

Employee Development

It allows them to develop those skills which will improve their performance and assume those responsibilities which

Employee Development

It allows them to develop those skills which will enable them to perform complex tasks and assume those responsibilities which will improve their career prospects. It makes the employees better leaders and decision makers.

Basis of Management Hierarchy

Delegation of authority establishes the superior-subordinate relationships which are the basis of management hierarchy. It is the degree of and flow of authority that specifies who has to report to whom.

(4) Motivation of Employees
Responsibility for work not only involves the share of work but it involves trust on the part of the superior and commitment on the part of the subordi-
This motivates the employees and improves their performance.

(5) Better Coordination
The different elements of delegation namely authority, responsibility and accountability help to define the powers, duties and answerability related to the various job positions.
This provides a clear picture of how the work is being performed and leads to better coordination among the various groups, departments and the employees.

IMPORTANCE OF DELEGATION

Ans 24 The functions of management discussed are: -

① Controlling

② Staffing

(b) The steps in the Controlling process discussed are: -

(1) Comparing actual performance with the standards
In this step, the actual performance is measured with standards to find out the deviations. Deviations refer to difference between actual and desired results.

(2) Analysing the deviations

Some deviations in performance is always expected. It is to find out the acceptable range of deviations. Moreover, in steps, the deviations are analysed to find out their exact nature which allows appropriate corrective action cannot be

Steps in the Staffing Process are: -

Estimating the Manpower Requirements
This step involves estimating the number and type of human resources required for the performance of various jobs. It necessarily necessitates workload analysis and workforce analysis.

Selection
This step involves choosing the best person from the pool of prospective candidates developed at the time of recruitment.

Principles communicated by the company are: -

Concerning the weaker sections of the society like people with special abilities, people from backward areas to

assume greater responsibility.

- (2) Performance Measurement to ensure effective results. The company pay due attention to the production process to ensure that the targets are met and there is no delay in deliveries.

Ans 22 1) The function of management performed by Rita is Directing

2) The element of the function which helped her to influence Smita's behaviour is Motivation

3) Features of Motivation are: -

(a) Motivation is an internal feeling. The urge, desires, strivings, aspirations or the drive.

Motivation is a complex process
This is because it may not have a uniform effect
on all the members. Members of the organisation are
heterogeneous in their reactions, opinions, etc.

Motivation can be both negative and positive
Positive motivation like promotion, rewards, etc. inspires
the employees to improve their performance. A manager
can also make use of negative means of motivation like
demotions, penalties, etc. to induce an employee to
act in a certain way.

Influence the behaviour of individuals is internal
internal to an individual. For eg - a person's want for a
house is internal to him/her.

Ans 23

(a) Differential Piece Wage System

- 1) Under this technique of scientific management, it differentiates between the efficient and the less efficient workers.
- 2) It rewards the efficient workers and motivates the efficient ones to improve their efficiency.
- 3) In this system, there are two piece rates. One for workers who produce the standard output or more and one for those who produce less than the standard output.
- 4) The difference in wages will have the strongest motive for the less efficient worker to improve his efficiency.

eg standard output to be produced = 100 units

Wages for workers who perform 100 units or more = ₹4

Wages for workers who perform less than 100 units = ₹3.

Worker	Worker A	Worker B
Units produced	= 150 units	100 80 units
Wages paid	150×4 = ₹600	80×3 ⇒ ₹240

Difference in wages is ₹360.

This will be the strongest motivator for Worker B to improve his performance

(b) Motion Study.

- 1) It refers to the study of motions like lifting object, sitting, changing positions, etc.
- 2) The main objective is to eliminate the ~~use~~ unnecessary movements or motions so that it takes less time to perform the job.
- 3) It helps to identify motions which are productive ~~mean~~ and which are unproductive.
- 4) Taylor used different colours or symbols to identify different motions.

The variables discussed are: -

Product related Variables / Product Mix

Their products include chips, biscuits, sweets and squashes".

Product mix refers to the combination of all the products that are offered for exchange by a company.

The major decisions with this respect include: -

Deciding about the quality, design, features, etc.
 Deciding about the branding of the product
 Decisions regarding the packaging of the product
 Decisions regarding the labelling of the product.

Supplementary Answer-Bo

A (2) Price Mix / Price Related Variables

"It offers discounts and easy credit terms to ret

Price refers to the amount that has to be paid to purchase the product.

Important decisions with this regard will include

- 1) determining pricing objectives
- 2) determining pricing strategies
- 3) factors affecting the price of the product
- 4) discount terms offered etc.

Place Mix

"It sells its products through various grocery stores so that the products are made available to the customers at the right place, quantity and time".

Place mix is concerned with the physical movement of the goods from places of production to places of consumption.

Important decision areas are: -

Decisions regarding the channels of distribution (wholesalers, retailers, etc) to be used.

The physical movement of the goods from where they are produced to the places where they are required for consumption.

(4) Promotional Mix

"It regularly uses different communication tools to increase sales".

Promotional Mix refers to the set of promotional tools an organisation uses to achieve its communication objectives.

It consists of

- 1) Advertising
- 2) Personal Selling
- 3) Sales Promotion Techniques
- 4) & Public Relations.

Decisions in this respect would be to determine the promotional budget; the promotional mix, etc.

The factors affecting dividend decisions are: -

1. Amount of Earnings

"Availability of enough cash in the company".

Since the dividends are paid out of ~~excess~~^{current} and past earnings, the amount of earnings is a major determinant of the dividend decisions. If the amount of earnings are more, more & higher dividends are likely to be distributed.

2. Growth Prospects

"Good prospects for growth in future".

Companies having good growth opportunities are likely to retain more money to finance their investment requirements. Hence, lower dividends will be declared as opposed to a

Company which does not have opportunities for growth
which will declare higher dividends.

1(B) Shareholders Preference

"It has many shareholders who prefer to receive an income from their investments."

Utkale

While declaring the dividends, the companies also keep in mind the preference of the shareholders in this regard. If the shareholders desire that a certain minimum amount be paid as dividend, then companies are likely to provide it. This is because there are always some shareholders who depend upon a regular income from their investments.

Contractual Constraints

• ~~taken a loan from IOBI~~

^M It had taken a loan of ₹ 40 lakhs from IOBI and is bound by certain restrictions on the payment of dividend according to the terms of loan agreement.

notes

While granting loans, lenders may impose certain restrictions on the company on payments as dividends. These restrictions must be adhered to while declaring the dividend to ensure that the dividend paid does not violate the terms of the loan agreement with this regard.

Factors affecting dividend decisions
