

Population

Assertion & Reason Type Questions

Directions : In the following questions given below, there are two statements marked as Assertion (A) and Reason (R). Read the statements and choose the correct option:

- a. Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).
- b. Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).
- c. Assertion (A) is true, but Reason (R) is false.
- d. Assertion (A) is false, but Reason (R) is true.

Q1. Assertion (A): Population is a pivotal element.

Reason (R): It is the point of reference from which all other elements are observed and from which they derive significance and meaning.

Answer : (a) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

Q2. Assertion (A): There is a sparse population in some regions such as Arunachal Pradesh.

Reason (R): Arunachal Pradesh has rugged terrain and unfavourable climatic conditions.

Answer : (a) Both Assertion (A) and Reason (R) are true and Reason (R) is the correct explanation of Assertion (A).

Q3. Assertion (A): Population is considered a dynamic phenomenon.

Reason (R): The number, distribution and composition of the present structure of population keeps on changing.

Answer : (b) Both Assertion (A) and Reason (R) are true, but Reason (R) is not the correct explanation of Assertion (A).
