# मम अङ्गानि

1

## Exercise

1. Write the Sanskrit words against each of the following pictures :

---

---

---

---

---

---

---

2. Different parts of the body are given here. Analyse them in three sections given below and pronounce them correctly :

Names of the body-parts : दन्ताः, ओष्ठः, हस्तः, नेत्रम्, वक्षः, मुखम्, उदरम्, नासिका, चरणः, जिह्वा

| Parts of head | Parts of body | Parts of hands and legs |
|---------------|---------------|-------------------------|
|               |               |                         |

#### Activities :

- Ready made puzzle of human body parts is available. Do the activity of writing Sanskrit words for each part and joining them.
- Introduce the body parts of bird and animal using pictures or models.
- **Game :** Each student will move his/her both the hands round and round in front of him/her. The teacher will also move his/her hands with students and speak k...r...r... Then the teacher will speak the name of any part of the body and set his/her both the hands on it. The teacher will say, “Look at me. Do what I say, but don’t do what I do.”

Saying this the teacher will say k...r...r... मुखम् k...r...r... उदरम् etc., and put both the hands there. In the beginning, he/she will put the hands on the part of the body, which he has spoken. Then he will speak मुखम् but put the hands on the उदर. So, the students who are concentrated looking at the parts will make a mistake in putting the hands on the spoken parts. Remove the one who makes the mistake. Lastly one who wins will say ‘Bharatmataki jay.’ A student can be the leader in place of the teacher.
