28. **Read the following source carefully and answer the questions that follow:** [4]

#### LOCAL GOVERNMENT

This new system of local government is the largest experiment in democracy conducted anywhere in the world. There are now about 36 lakh elected representatives in the panchayats and municipalities etc., all over the country. This number is bigger than the population of many countries in the world. Constitutional status for local government has helped to deepen democracy in our country. It has also increased women's representation and voice in our democracy. At the same time, there are many difficulties. While elections are held regularly and enthusiastically, gram sabhas are not held regularly. Most state governments have not transferred significant powers to the local governments. Nor have they given adequate resources. We are thus still a long way from realising the ideal of self-government.

- i. Analyse the significance of the elected representatives in the Panchayats. (1)
- ii. In what way has the representation of women in democracy influenced by Constitutional status for local government? (1)
- iii. What has been the impact of granting Constitutional status to local government on the democratic landscape of the country? Analyse any two impacts. (2)

OR

The vast territory lying between the Adriatic sea and the Black sea comprising the modern states of Greece, Romania, Albania, Slovenia, Croatia, Bosnia- Herzegovina, Montenegro and Serbia was known as the Balkans.

All these states were inhabited by people broadly known as Slavs as they were once the part of the Ottoman Empire, The disintegration of the Ottoman Empire and the spread of the ideas of Romantic nationalism made the Balkan region very explosive. The Balkan states were fiercely jealous of one another and each hoped to gain more territory at the expense of the others.
6. Bengal Gazette was a weekly magazine that described itself as 'a commercial paper open to all, but influence by none.' From 1780 James Augustus Hickey began to edit the magazine. Gradually, it was became private English enterprise, proud of its independence from colonial influence that began English printing in India. Hickey published freely, right from the advertisements related to the import and sale of slaves to gossips of company's senior officials in India. As a result, it enraged the colonial masters and Hickey was persecuted by General Warren Hastings.

OR

  - i. As handwritten books were expensive, only the rich, the aristocrats and the Church could employ scribes. The scribes wrote only for aristocratic circles and rich monastic libraries.
  - ii. As the demand for books increased, booksellers all over Europe began exporting books to many different countries. Book fairs were held at different places.
  - iii. Production of handwritten manuscripts was also organised in new ways to meet the expanded demand.
  - iv. Scribes or skilled hand writers were no longer solely employed by wealthy or influential patrons but increasingly by booksellers as well.

- v. One bookseller could employ 50 scribes due to the new technology in printing. It was no longer the monopoly of the rich and the influential.
7. In Britain, the formation of a nation-state was not the result of a sudden upheaval, revolution or national struggle but of a long drawn out parliamentary process. The process of unification of Britain is as follows:
- i. Britain was not a nation-state prior to 18<sup>th</sup> century. England had people of many ethnic groups such as English, Welsh, Scot and Irish with their own cultural and political traditions.
  - ii. The English nation steadily grew in importance, wealth and power and extended her influence over other nations of the island.
  - iii. In 1688, England established as a nation-state. English parliament seized power from the monarchy.
  - iv. In 1707 the Act of Union between England and Scotland led to the formation of the 'United Kingdom of Great Britain'.
  - v. England dominated Scotland and Ireland in all spheres. British Parliament was dominated by English members.
  - vi. Ireland was forcibly taken by the British after the failed revolution led by Wolfe and his United Irishmen (1798) and a new "British Nation" was formed.

OR

- i. **Conservative Post-Napoleon Era:** European governments embraced conservatism after Napoleon's defeat in 1815.
  - ii. **Preservation of Traditional Values:** Conservatives advocated safeguarding established institutions like the monarchy, church, social hierarchies, property, and family.
  - iii. **Modernisation for Strengthening Traditions:** Most conservatives however did not propose a return to the society of pre-revolutionary days. They realised from the changes initiated by Napoleon that modernisation could, in fact, strengthen traditional institutions like the monarchy.
  - iv. **Enhancing State Power:** This modernization would make state powers more effective and robust, ensuring the stability of autocratic monarchies.
  - v. **Strengthening Autocratic Rule:** A modern bureaucracy, dynamic economy, and the abolition of feudalism and serfdom could bolster the authority of Europe's autocratic monarchies.
8. i. In many places, the local leaders told peasants that Gandhiji had declared that no taxes were to be paid and the land was to be redistributed among the poor. The name of the Mahatma was being misused.
- ii. The Oudh Kisan Sabha was set up in October 1920 to address the grievances of the villagers.
- iii. During the Non-Cooperation Movement, the houses of talukdars and merchants were attacked, bazaars were looted, and grain hoards were taken over. In many places, local leaders told peasants that Gandhiji had declared that no taxes were to be paid and land was to be redistributed among the poor. The increasing violent activities made Congress leaders unhappy with the peasant movement.
9. a. Nagpur  
b. Champaran

#### SECTION-B GEOGRAPHY (20 marks)

10. (c) Narmada  
**Explanation:**  
The Sardar Sarovar Dam is on the Narmada river near Navagam, Gujarat in India. Gujarat, Madhya Pradesh, Maharashtra, and Rajasthan are the four important states in India which receive water and electricity supply from the dam. This project was laid out by Prime Minister Jawahar Lal Nehru on April 5, 1961. The project took form in 1979 as a part of a development scheme to increase irrigation and produce hydroelectricity.

**Explanation:**

There are different versions of the discovery of coffee. In about AD 850, Kaldi, an Arab goat-herder, who was puzzled by the queer antics of his flock, tasted the berries of the evergreen bush on which the goats were feeding.

15.

(c) Statement i, ii, & iii are correct.

**Explanation:**

**Rice is a commercial crop in Haryana and Punjab**, but in Odisha, it is a subsistence crop. The main characteristic of Commercial Farming is the use of higher doses of modern inputs, e.g. high yielding variety (HYV) seeds, chemical fertilisers, insecticides and pesticides in order to obtain higher productivity. The degree of commercialisation of agriculture varies from one region to another.

16. The main contribution of the Brundtland Commission Report, 1987, are:

- i. The seminal contribution with respect to resource conservation at the global level was made by the Brundtland Commission Report, 1987.
- ii. This report introduced the concept of 'sustainable development' and advocated it as a means for resource conservation, which was substantially published in a book, entitled 'Our Common Future'.

17. Minerals are indispensable part of human life.

- i. Almost everything we use, from a tiny pin to towering building or a big ship, all are made from minerals.
- ii. The railway lines and the tarmac of the roads, our implements and machinery too are made from minerals.
- iii. Cars buses, trains, aeroplanes are manufactured from minerals and run on power resources derived from the earth.
- iv. In all stages of development, human beings have used minerals for their livelihood, decoration, festivities, religious and ceremonial rites.
- v. Availability of the minerals helps in the economic development of the country.
- vi. Our food too contains minerals.

OR

The importance of conservation of minerals is explained below:

- i. Mineral resources, in the present scenario, are being rapidly consumed. However, it is important to conserve these resources because the geological processes of mineral formation are very slow and it takes millions of years for them to be created and concentrated.
- ii. The rates of replenishment are infinitely small in comparison to the present rates of consumption. The finite and nonrenewable nature of these resources makes them our country's most valuable possessions.
- iii. Recycling of metals, using scrap metals and other substitutes are the important steps involved in the conservation of mineral resources.

Some of the measures to conserve minerals are as under:

- i. Minerals should be used in a planned and sustainable manner.
  - ii. Improved technology needs to be constantly evolved to allow the use of low-grade ore at a low cost.
  - iii. Recycling of metals using scrap metals.
  - iv. Wastage in mining and processing should be minimized.
18. i. In Chotanagpur plateau region maximum iron and steel industries are concentrated. Low cost of iron ore and Iron mines are located in the nearby areas. It helps to reduce the transportation cost of iron ore to the industries.
- ii. We are not able to perform to our full potential largely because
- i. High costs and limited availability of coking coal

- ii. Lower productivity of labour
  - iii. Irregular supply of energy and poor infrastructure.
  - iii. The Chota Nagpur Plateau is a plateau in eastern India, which covers much of Jharkhand state as well as adjacent parts of Chhattisgarh, Odisha, West Bengal and Bihar. The Indo-Gangetic plain lies to the north and east of the plateau, and the basin of the Mahanadi river lies to the south.
- Though India is an important iron and steel-producing country in the world yet, we are not able to perform to our full potential largely. Reasons for low productivity of iron and steel include the following reasons: **High costs and limited availability of coking coal.** Lower productivity of labor.

#### SECTION-C POLITICAL SCIENCE (20 marks)

- 20.
- (c) Only statement iv is right.
- Explanation:**
- No one national party is able to secure on its own a majority in the Lok Sabha, until 2014. As a result, the national parties are compelled to form alliances with State parties. Since 1996, nearly every one of the State parties has got an opportunity to be a part of one or the other national level coalition government. This has contributed to the strengthening of federalism and democracy in our country.
- 21.
- (b) Vertical Power Sharing
- Explanation:**
- The vertical sharing power:
- i. Power is shared among the different levels of the governments.
  - ii. Power involves the highest and lower levels of government.
  - iii. The lower organs work under the higher organs.
- 22.
- (c) Only statement iv is right.
- Explanation:**
- Dictatorships have a slightly higher rate of economic growth. The inability of democracy to achieve higher economic development worries us. However, the difference in the rates of economic development between less developed countries with dictatorships and democracies is negligible.
- 23.
- (c) A is true but R is false.
- Explanation:**

Universal Adult Franchise gives the right to vote to everyone irrespective of their caste, religion, colour, or gender. It is based on the principle of equality. The right to vote should be given to everyone because that is the whole essence of democracy, i.e. equal representation. Any given class cannot determine wisdom.

24. Modern democracies embrace diverse power-sharing models to distribute authority among various entities. This includes federal systems, where power is divided between central and regional governments, and coalition governments formed by multiple parties. Additionally, the separation of powers among the executive, legislative, and judicial branches ensures checks and balances. These arrangements support inclusivity, stability, and representation by preventing the concentration of power and safeguarding the values of democracy.
25. Under a democratic rule following favourable conditions are generally provided to people:
- a. It promotes dignity to everyone irrespective of caste, creed and religion and also provides a method to resolve conflict.
  - b. It ensures the freedom of the individual.
  - c. It provides equal status and opportunity.
  - d. It provides a positive reservation for women and other advantages for discriminated groups.
26. i. Most democracies fall short of elections that provide a fair chance to everyone and in subjecting every decision to public debate.
- ii. There is lack of transparency in many democratic countries. Democratic governments do not have a very good record when it comes to sharing information with citizens.
- iii. Democracy often frustrate the needs of the people and often ignores the demand of a majority of its population.
- iv. In a democracy, the government is expected to attend to the demands of the people and should be largely free from corruption.
- The record of democracies is not impressive on these two counts.
27. Political parties play a vital role in democracies which makes them an essential component of a democracy. The rise of political parties is directly linked to the emergence of representative democracies The key role played by the political parties in a democracy is listed below:
- Political Parties contest elections. Those who win form the government and those parties that lose in the elections play the role of opposition to the parties in power,
  - They offer different policies, schemes, and programs and the voters chose from them.
  - Political Parties play a decisive role in making laws for the country.
  - Parties form and run the government. The political executives of the political party in power take big policy decisions.
  - Political Parties shape public opinion. They provide people access to government machinery and welfare schemes implemented by governments.

OR

The challenges faced by political parties in India are as follows:

- i. **Lack of internal democracy:** In political parties, there is a concentration of power in the hands of a few. In such cases, some members become too powerful and make all decisions, while no importance is given to other members of a party.
  - ii. **Dynastic succession:** Generally, inexperienced family members are given easy entry into political parties while deserving candidates are left out.
  - iii. **Money and muscle power:** Because the main aim of political parties is to capture power and form the government, parties focus only on winning the elections. Many business houses influence the decisions of the party and government by providing funds to the parties.
  - iv. **Meaningful Choice:** The fourth challenge in elections is that parties often fail to provide voters with a meaningful choice.
  - v. **Same set of leaders:** Sometimes, the same set of leaders shifts from one party to another, making it impossible for people to elect different leaders. This is the fifth challenge.
28. i. The significance of the elected representatives in the Panchayats lies in their sheer number, which is about 36 lakh. This large number of representatives indicates a broad base of democratic participation, making it one of the largest experiments in democracy globally. It ensures that a wide range of voices and local issues are represented and addressed at the grassroots level.
- ii. The Constitutional status of local government has significantly increased women's representation and voice in democracy. By mandating reservations for women in Panchayats and municipalities, it has ensured that women have a platform to participate in governance, influence decision-making, and address issues that specifically affect them and their communities.
- iii. **Deepening Democracy:** Granting Constitutional status to local government has deepened democracy by institutionalizing local governance structures. This has made governance more inclusive and participatory, allowing citizens to have a direct say in their local affairs.

**Challenges in Implementation:** Despite the positive impacts, there are challenges such as irregular gram sabhas and inadequate transfer of powers and resources from state governments to local bodies. These issues hinder the full realization of self-government and effective local governance.

#### SECTION-D ECONOMICS (20 marks)

29. (a) Government wanted Indian producers to compete in the World Market.

**Explanation:**

Starting around 1991, some farreaching changes in policy were made in India. The government decided that the time had come for Indian producers to compete with producers around the globe. It felt that competition would improve the performance of producers within the country since they would have to improve their quality.

30.

- (c) The law legalises the use of rupee as a medium of payment

**Explanation:**

As per Indian law, no other individual or organisation is allowed to issue currency. Moreover, the law legalises the use of rupee as a medium of payment that cannot be refused in settling transactions in India. No individual in India can legally refuse a payment made in rupees.

35. Following are the reasons that forced the Indian Government for putting Barriers:

- To protect producers within the country from foreign competition.
- To regulate foreign trade and to decide what kind of goods and how much of each should come into country.
- To save our freedom from Neo Colonialism.

36. The functions of Self Help Group (SHG) are as follows:

- Members of SHG can take small loans from the group itself to meet their needs. The group charges interest on these loans but this is still less than what the moneylender charges.
- Small loans are provided to the members for releasing mortgaged land, for meeting working capital needs, for housing materials, and for acquiring assets.
- The group decides as regards the loans to be granted — the purpose, amount, interest to be charged, repayment schedule etc. The group is responsible for the repayment of the loan.
- the SHGs help borrowers overcome the problem of lack of collateral.

37. Money cannot buy all the goods and services that one needs to lead a better life because of the following reasons:

- Apart from money, the infrastructure and facilities like health and education are required to lead a good life. We can not buy all goods and services with money until we have all the supporting services available at the required time and place.
- Money cannot ensure the availability of food to the undernourished if the distribution of food is not proper. The food distribution system is not good in most of the rural parts of the country, due to which most of the people remain

undernourished.

iii. Money cannot protect us from infectious diseases, unless and until the whole community becomes aware of hygiene and takes preventive steps.

iv. Also, money cannot buy us a pollution free environment.

38. The following are the causes of rural unemployment in India:

- a. **Lack of education and skill:** Rural areas are far behind education and thus are not able to access the required skill.
- b. **Lack of Industrialization:** Even after more than 60 years of independence more than 80% of the people are dependent on agriculture for their livelihood. Chances of disguised unemployment are very high in agriculture.
- c. **Stress on family occupation:** More family members are supposed to assist in the production of crops rather than going for other occupations because of the fact that agriculture is labour intensive.
- d. **No access to opportunities:** Rural areas and occupations are devoid of investment. This makes the possibility of a lack of opportunities.
- e. **Lack of infrastructure:** Seasonal roads, lack of electricity, etc. keep the rural areas far behind the development.
- f. **Domination of primary sector:** Most of the people of rural areas are involved in primary activities. The possibility of unemployment in the primary sector is more.

OR

- The primary sector continues to be the largest employer.
- The primary sector contributes more than 20% to the GDP of India.
- It's employment share is more than 55%.
- It is the most labouring sector of the Indian economy.
- It covers agriculture, dairy, fishing, and forestry which all contribute to the Indian economy.
- The primary sector is important in employing the largest section of the population for several reasons:

**First**, the primary sector is the largest employer in many developing countries, where a large portion of the population works in agriculture or other primary industries. In these countries, the primary sector is a major contributor to the economy and employs a large number of people.

**Second**, the primary sector often employs people in rural areas, where there may be limited opportunities for employment in other sectors. This is especially important in developing countries, where the majority of the population lives in rural areas and relies on agriculture for their livelihoods.

**Finally**, the primary sector plays a vital role in supporting the other sectors of the economy by providing the raw materials that are used to produce goods and services.

Overall, the primary sector is important in employing the largest section of the population, particularly in developing countries, and plays a crucial role in the economic development of these countries.
