

*** Multiple choice questions.****[15]**

1. Which European power was the first to arrive in India for trade?

- (A) British (B) French (C) Portuguese (D) Dutch

Ans. : (C) Portuguese

2. Who was the first Portuguese explorer to reach India?

- (A) Ferdinand Magellan (B) Christopher Columbus
(C) Vasco da Gama (D) Marco Polo

Ans. : (C) Vasco da Gama

3. In which year did Vasco da Gama land in Calicut?

- (A) 1492 (B) 1498 (C) 1600 (D) 1526

Ans. : (B) 1498

4. Which company was formed in 1600 to carry on trade with the East?

- (A) British East India Company (B) Dutch East India Company
(C) French India Company (D) Portuguese Trade Guild

Ans.: (A) British East India Company

5. What was the main reason for European powers coming to India?

- (A) To spread religion (B) To find jobs
(C) To trade in spices and textiles (D) To learn Indian culture

Ans. : (C) To trade in spices and textiles

6. Which battle marked the beginning of British political rule in India?

- (A) Battle of Panipat (B) Battle of Buxar
(C) Battle of Plassey (D) Battle of Haldighati

Ans. : (C) Battle of Plassey

7. Who was the Nawab of Bengal defeated in the Battle of Plassey?

- (A) Shuja-ud-Daula (B) Siraj-ud-Daulah (C) Tipu Sultan (D) Haider Ali

Ans. : (B) Siraj-ud-Daulah

8. What was the economic policy followed by the British in India?

- (A) Self-sufficiency
(B) Industrialization
(C) Mercantilism
(D) Socialism

Ans. : (C) Mercantilism

9. The British introduced railways in India mainly to:

- (A) Help Indians travel
- (B) Promote tourism
- (C) Transport raw materials and troops
- (D) Improve communication

Ans. : (C) Transport raw materials and troops

10. Which of the following was a major effect of colonial rule in India?

- (A) Development of Indian industries
- (B) Decline of cotton industries
- (C) Increase in Indian exports
- (D) Free trade for Indian merchants

Ans. : (B) Decline of cotton industries

11. Who was the first European explorer to reach India by sea?

- (A) Christopher Columbus
- (B) Vasco da Gama
- (C) Ferdinand Magellan
- (D) James Cook

Ans. : (B) Vasco da Gama

12. The Doctrine of Lapse was introduced by:

- (A) Lord Wellesley
- (B) Lord Curzon
- (C) Lord Dalhousie
- (D) Warren Hastings

Ans. : (C) Lord Dalhousie

13. Which states were captured by the British under the Doctrine of Lapse?

- (A) Free states
- (B) Princely states
- (C) Republic states
- (D) Non-fortified states

Ans. : (B) Princely states

14. Rani Lakshmi Bai played a significant role in the:

- (A) Revolt of 1857
- (B) Non-Cooperation Movement
- (C) Civil Disobedience Movement
- (D) Quit India Movement

Ans.: (A) Revolt of 1857

15. The British followed the policy of "Divide and Rule" to:

- (A) Promote equality
- (B) Unify Indian rulers
- (C) Prevent Indian unity
- (D) Develop Indian education

Ans. : (C) Prevent Indian unity

* In the question given below, there are two statements marked as Assertion

[5]

(A) and Reason (R). Read the statements and chose the correct option:

16. **Assertion (A):** Indian handloom industries declined under British rule.

Reason (R): The British encouraged Indian artisans by providing them modern machines.

Codes:

(A) Both (A) and (R) are true, and (R) is the correct explanation of (A).

(B) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

(C) (A) is true, but (R) is false.

(D) (A) is false, but (R) is true.

Ans. : (C) (A) is true, but (R) is false.

Explanation: The British did not provide modern machines to artisans; instead, they promoted British-made textiles, harming Indian handloom.

17. **Assertion (A):** The Doctrine of Lapse was used by the British to annex Indian princely states.

Reason (R): It allowed annexation of states without a natural male heir.

Codes:

(A) Both (A) and (R) are true, and (R) is the correct explanation of (A).

(B) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

(C) (A) is true, but (R) is false.

(D) (A) is false, but (R) is true.

Ans. : (A) Both (A) and (R) are true, and (R) is the correct explanation of (A).

Explanation: Lord Dalhousie introduced this policy, and it was used to take over states like Jhansi.

18. **Assertion (A):** The Revolt of 1857 was successful in ending British rule in India.

Reason (R): Indian sepoys and rulers were united under a common leadership.

Codes:

(A) Both (A) and (R) are true, and (R) is the correct explanation of (A).

(B) Both (A) and (R) are true, but (R) is not the correct explanation of (A).

(C) (A) is true, but (R) is false.

(D) (A) is false, but (R) is true.

Ans. : (D) (A) is false, but (R) is true.

Explanation: The Revolt of 1857 failed to end British rule, but many Indians did fight together under shared leadership.

19. **Assertion (A):** The British introduced railways in India.

Reason (R): The railways were built mainly to serve the economic interests of India.

Codes:

- (A) Both (A) and (R) are true, and (R) is the correct explanation of (A).
- (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A).
- (C) (A) is true, but (R) is false.
- (D) (A) is false, but (R) is true.

Ans.: (A) Both (A) and (R) are true, and (R) is the correct explanation of (A).

20. **Assertion (A):** The British imposed high land revenue policies on Indian farmers.

Reason (R): They wanted to increase the productivity of Indian agriculture.

Codes:

- (A) Both (A) and (R) are true, and (R) is the correct explanation of (A).
- (B) Both (A) and (R) are true, but (R) is not the correct explanation of (A).
- (C) (A) is true, but (R) is false.
- (D) (A) is false, but (R) is true.

Ans. : (C) (A) is true, but (R) is false.

*** State Whether The Sentences Are True Or False.[1 Marks Each]**

[10]

21. The British came to India only to help Indians develop modern industries.

Ans. : false – Reason: They primarily came for trade and later exploited India's resources.

22. The Battle of Plassey marked the beginning of British political control in India.

Ans. : true

23. Rani Lakshmbai accepted the British policy of Doctrine of Lapse peacefully.

Ans. : false – Reason: She strongly opposed it and led a revolt against the British.

24. The introduction of railway in India was mainly for the benefit of Indian farmers.

Ans. : false – Reason: Railways were introduced to transport raw materials and troops.

25. The Revolt of 1857 was also known as India's First War of Independence.

Ans. : true

26. The ancient traditional institutions did not transmit practical knowledge.

Ans. : false

27. In the 19th century, India's textile exports rose sharply.

Ans. : false

28. R.C. Dutt was an MP in the House of Commons in 1892.

Ans. : false

29. The "Sannyasi-Fakir rebellion" was one of the earliest organised resistance movements in India.

Ans. : true

30. The British ruled India systematically and ethically for over 200 years and done a lot of things for public welfare.

Ans. : false

*** Fill In The Blanks With Correct Alternative.[1 Marks Each]**

[10]

31. The first European power to arrive in India was the _____. (1757, Portuguese)

Ans. : Portuguese

32. Vasco da Gama landed at _____ in 1498. (Calicut, Siraj-ud-Daulah)

Ans. : Calicut

33. The East India Company was _____ established in 1600. (British, Portuguese)

Ans. : British

34. The Battle of Plassey was fought in the year _____. (Calicut, 1757)

Ans. : 1757

35. The British defeated _____ in the Battle of Plassey. (Siraj-ud-Daulah, British)

Ans. : Siraj-ud-Daulah

36. Vasco da Gama reached the Indian port of Calicut in _____.

Ans. : self

37. The policy used by the British to annex Indian states without a natural heir was called the _____.

Ans. : self

38. The Revolt of 1857 started in the city of _____.

Ans. : self

39. _____ was the queen of Jhansi who fought bravely against British rule.

Ans. : self

40. India traded with the _____ and the _____ over two millennia ago.

Ans. : self

*** Answer The Following Questions In One Sentence.[1 Marks Each]**

[11]

41. What is colonialism?

Ans. : Colonialism means one country ruling another to use its land, people, and resources for its own benefit. It often causes hardship for the people being ruled and changes their way of life.

42. Who was the first European to discover a sea route to India?

Ans. : Vasco da Gama

43. In which year was the Battle of Plassey fought?

Ans. : 1757

44. Name the policy introduced by Lord Dalhousie to annex Indian states.

Ans. : Doctrine of Lapse.

45. What was the main motive of the British in coming to India?

Ans. : To trade and make profit.

46. Who was the last Mughal emperor during the Revolt of 1857?

Ans. : Bahadur Shah Zafar.

47. Who introduced the Doctrine of Lapse?

Ans. : self

48. In which year did the Revolt of 1857 begin?

Ans. : self

49. Name the first European country to establish trade with India.

Ans. : self

50. Which Indian queen is known for her bravery during the 1857 revolt in Jhansi?

Ans. : self

51. Where did Vasco da Gama land in India in 1498?

Ans. : self

*** VERY SHORT ANSWER QUESTIONS**

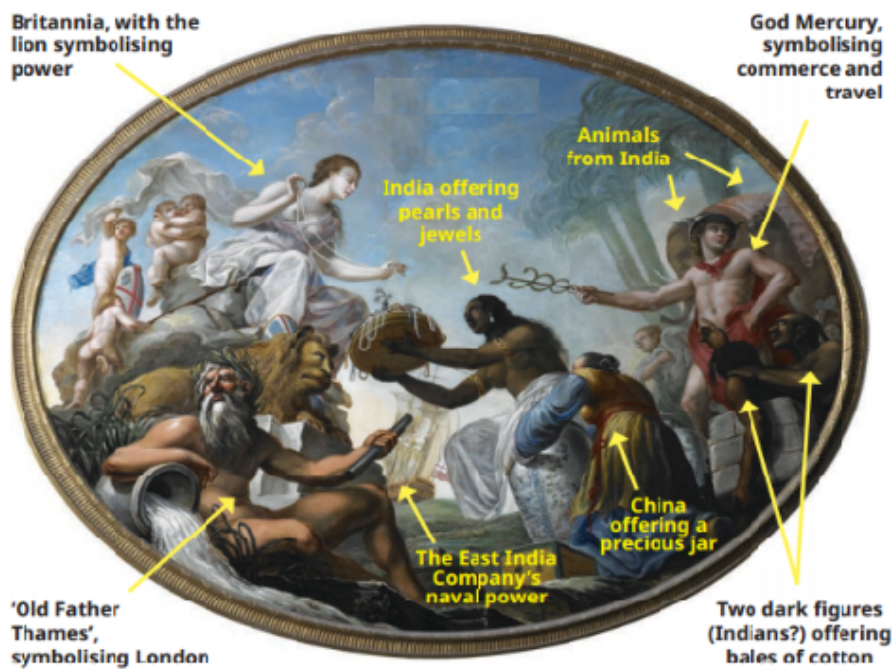

[20]

52. Let us return to this painting, but now with some clues to its symbolism. Note how Britannia (a symbolic figure for Britain) sits higher than the colonies, pointing to her superior power; contrast with the lower position and bent posture of the colonies. Did they really 'offer' their wealth? Or did Britain seize it by force or ruse? Note also the Indians' dark complexion (in contrast with that of Britannia), reflecting the belief in the superiority of white people over the dark-skinned

Student Bro

'natives'.

Ans. : No, Indians did not offer their wealth willingly. In most cases, Britain seized it by force, unfair laws, or oppression. The British used high taxes, unfair trade rules, and military power to take control of land, resources, and money. Indian farmers, artisans, and rulers often had no choice but to give up their wealth. So, it was not a gift it was taken through exploitation and control.

53. What is meant by “the sun never sets on the British Empire”? Do you think this was a correct statement?

Ans. : “The sun never sets on the British Empire” means the empire was so vast, with colonies across the world, that the sun was always shining on at least one of its lands. Yes, I think this was a true statement for that time, because Britain ruled over many countries across Asia, Africa, Europe, and the Americas.

54. What were the main economic impacts of British colonial rule on Indian industries?

Ans. : The main economic impacts of British colonial rule on Indian industries involve:

1. Traditional Indian industries such as handloom weaving and handicrafts declined.
2. Cheap British manufactured goods flooded Indian markets, making local products uncompetitive.
3. The British focused on exporting raw materials and importing finished goods, turning India into a supplier of raw resources.

55. What was the Doctrine of Lapse and how did it affect Indian princely states?

Ans. : The Doctrine of Lapse was a policy introduced by Lord Dalhousie. It stated that if an Indian ruler died without a natural male heir, the kingdom would be annexed

by the British. States like Jhansi, Satara, and Nagpur were annexed, causing resentment among Indian rulers.

56. Describe the causes of the Revolt of 1857.

Ans. : The causes of the Revolt of 1857 are:

1. Political: Annexation of Indian princely states under the Doctrine of Lapse.
2. Economic: Exploitation of peasants and artisans, high taxes, and destruction of traditional industries.
3. Social/Religious: Reforms interfering with Indian customs and fear of conversion to Christianity.
4. Military: Discontent among Indian sepoys due to discrimination and the use of greased cartridges, which was against their religious beliefs.

57. How did the British colonial rule affect Indian textiles?

Ans. : The British colonial rule affect Indian textiles in many ways

1. Indian textiles lost their foreign markets due to British-imposed import duties.
2. Machine-made textiles from Britain flooded the Indian market, causing decline of handloom.
3. Many Indian weavers and artisans lost their livelihood

58. What were the major economic impacts of British rule on Indian agriculture?

Ans. : self

59. Explain the Doctrine of Lapse and give two examples of its application.

Ans. : self

60. Why is the Revolt of 1857 considered the first war of Indian independence?

Ans. : self

61. How did the British use the policy of "Divide and Rule" in India?

Ans. : self

*** Answer The Following Questions In Short.[3 Marks Each]**

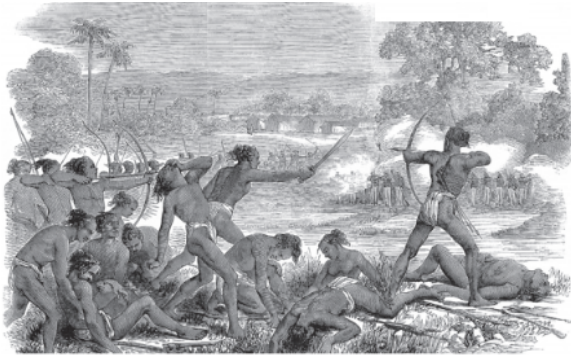

[42]

62. Why do you think Dadabhai Naoroji means by 'un-British rule in India'? (Hint: he was an MP in the House of Commons in 1892.)

Ans. : Dadabhai Naoroji used the phrase "Un- British Rule in India" to highlight how British colonial governance violated the very principles of justice, fairness, and liberalism that Britain claim to up hold. He argued that while British rule appeared civil and progressive on the surface, it was fundamentally exploitative and unjust in practice. As a British MP, he believed the British were not treating Indians with the same respect or rights given to people in Britain.

63. Note how the Santhals are depicted in the 1856 sketch drawn from an artist's imagination: observe their complexion, dress, weapons and draw your conclusions as regards the image this depiction would create in the popular mind

in Britain.

Ans. : In this 1856 sketch, the Santhals are shown with dark skinned, minimal clothing, with traditional bows and arrows. They appear wild, primitive, and violent, fighting British soldiers with their handmade traditional weapons. This image, drawn from imagination, likely created a negative and fearful picture in the British public's mind depicting the Santhals as uncivilized savages rather than people resisting injustice. It helped justify British rule as a "civilizing mission", hiding the real reasons for tribal uprisings like exploitation and land loss.

64. Indigo is a natural deep blue pigment used in dyeing. Can you think of other natural substances that have been traditionally used in India to dye cloth?

Ans. : India use several natural substances that have been traditionally used in India to dye cloth such as Turmeric, Henna (Mehndi), Madder root, Pomegranate rind, Indigo, Neem leaves, Bark of trees, Lac insect resin etc. and these substances give various colours like yellow, reddish-brown, red, pink, greenish, gray, purple etc. These dyes were eco-friendly and used in traditional textile arts like Block Printing, Kalamkari, and Bandhani.

65. Why do you think was the term 'Sepoy Mutiny' rejected after Indian Independence? Write one paragraph explaining your reasons.

Ans. : The term 'Sepoy Mutiny' was rejected by historians after Indian Independence because it gives the false idea that only a few Indian soldiers rebelled for personal or military reasons. In reality, the Revolt of 1857 was a large and widespread uprising involving not just Indian soldiers, but also farmers, landlords, regional kings, and citizens from different parts of India. It was a united fight against British rule and oppression. Calling it just a "mutiny" hides its true national character and the freedom struggle it represented.

66. In the sentence "It opened (or re-opened) India to the world and the world to India", why do you think we added 'reopened'?

Ans. : The word re-opened was used as India was already connected with the world through trade, its cultural heritage and philosophy long before colonialism. Here's a snapshot to its global exposure - India was a key player in trade through silk route and had a well-established sea ports and trade systems, exporting goods like spices, gems, cotton, indigo, and so much more. Buddhism and Hinduism were widely

spread across the world even before the British. So British didn't connect India with the world because it was already connected.

67. Discuss the changes introduced by the British in the Indian education system and their impact on Indian society.

Ans. : The changes introduced by the British in the Indian education system involves:

1. Introduction of English education – Lord Macaulay's Minute on Indian Education (1835).
2. Western curriculum replaced traditional pathshalas, madrasas and viharas.
3. Aimed to create a class of "educated Indians" who would serve British interests.
4. Impact: Emergence of a modern educated middle class, spread of social reform movements, rise of Indian nationalism. However, limited access – mainly urban and elite sections benefited.

68. How did the tribal communities react to British colonial policies? Give examples of any two tribal revolts.

Ans. : British policies restricted tribal access to forests and their traditional livelihoods. They imposed land revenue, forest laws, and forced labour caused resentment.

1. Santhal Rebellion (1855-56): Against moneylenders and zamindars in present-day Jharkhand.
2. Munda Rebellion (1899-1900): Led by Birsa Munda in response to land alienation and missionary influence. These uprisings reflected the tribal resistance to colonial economic and social changes.

69. Who was Rani Lakshmbai, and what was her role in the Revolt of 1857?

Ans. : 1. Rani Lakshmbai was the queen of Jhansi and a key figure in the 1857 Revolt.

2. After her adopted son was denied succession under the Doctrine of Lapse, she protested British rule.

3. She led her troops bravely in the Battle of Jhansi (1858) against the British.

4. After Jhansi was captured, she escaped and joined forces with Taty Tope in Gwalior.

5. She fought fiercely until her martyrdom on June 17, 1858.

6. Her bravery and leadership became a symbol of resistance and patriotism in Indian history.

70. Describe the major causes of the Revolt of 1857.

Ans. : self

71. Explain the administrative and economic policies adopted by the British and their impact on India.

Ans. : self

72. How did the British East India Company transform from a trading company into a

ruling power in India?

Ans. : self

73. Imagine you are a textile weaver in India during the 19th century. Describe how British rule has impacted your livelihood and what changes you have seen in your village.

Ans. : As a weaver, my life has changed drastically. Earlier, we had steady work making fine cotton and silk for local and foreign markets. But now, cheap British clothes are flooding the market. Our prices have fallen, and many weavers have lost their jobs. British officers impose heavy taxes, and our village has seen families migrate to cities or work as laborers in British plantations. The once-busy looms are now silent.

74. Describe the causes of the Revolt of 1857.

Ans. : The causes of the Revolt of 1857 are:

1. Political: Annexation of Indian princely states under the Doctrine of Lapse.
2. Economic: Exploitation of peasants and artisans, high taxes, and destruction of traditional industries.
3. Social/Religious: Reforms interfering with Indian customs and fear of conversion to Christianity.
4. Military: Discontent among Indian sepoys due to discrimination and the use of greased cartridges, which was against their religious beliefs.

75. How did the British colonial rule affect Indian textiles?

Ans. : The British colonial rule affect Indian textiles in many ways

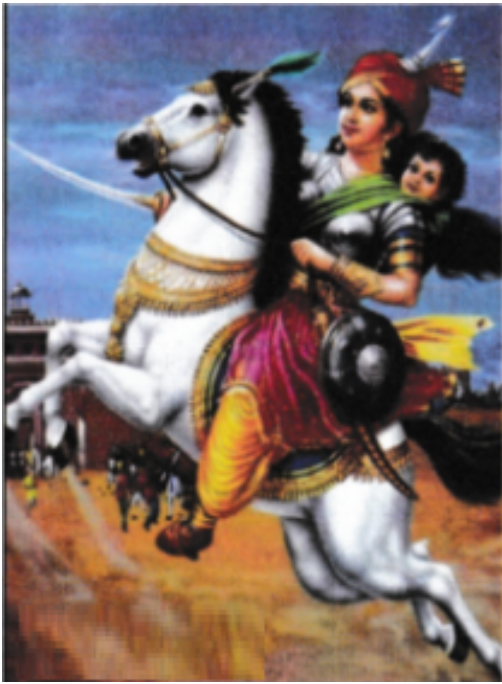

1. Indian textiles lost their foreign markets due to British-imposed import duties.
2. Machine-made textiles from Britain flooded the Indian market, causing decline of handloom.
3. Many Indian weavers and artisans lost their livelihood

* Picture Based Question.

[3]

Student Bro

76. Identify the historical figure shown in the image.
77. What event or movement is she most associated with?
78. What does this image symbolise in the context of colonial resistance?

Ans. : 1. The historical figure is Rani Lakshmi Bai, the Queen of Jhansi.
2. She is most associated with the Revolt of 1857, where she played a key role in resisting British annexation of her kingdom.
3. The image symbolises bravery, patriotism, and the active role of women in India's first large-scale resistance against British colonial rule.

*** Answer The Following Questions In Brief.[5 Marks Each]**

[90]

79. What drew European powers to India?

Ans. : European powers were drawn to India by a mix of economic ambition, strategic interests, and cultural motivations.

• Economic Temptations:

1. Spices and Textiles: India was famous for its rich resources of spices, indigo, silk, and cotton, which were highly sought after in European markets.

2. Direct Trade Routes: The Europeans sought to avoid Arab and Venetian middlemen who monopolized land-based trade routes and charged exorbitant rates.

• Technological and Navigational Innovations

1. Sea Route Discovery: Vasco da Gama arrived in Calicut in 1498, establishing a sea route to India directly and paving the way for numerous European expeditions.

• Religious & Cultural Motives

1. Christianisation: The missionary zeal pushed numerous explorers, particularly the Portuguese, to spread Christianity.

- Geopolitical Strategy

1. Control of Oceans: Controlling Indian Ocean trade routes equated to world dominance.
2. European Power Rivalry: Portugal, Spain, the Netherlands, France, and Britain all attempted to establish bases in India in a bid to outcompete each other. India was not merely a land of spices it was a means of acquiring the world power.

80. What was India's economic and geopolitical standing before and during the colonial period?

Ans. : Before the Colonial Era: India was not a single country but a group of kingdoms and empires and they had their own political agendas.

Power was divided between local rulers such as the Mughals, Marathas, Rajputs, and southern kingdoms. India was a significant center along international trade routes, particularly for gems, textiles, and spices. This drew merchants from the Middle East, Europe, and Southeast Asia.

Indian kings exercised their autonomy in diplomacy and entered into alliances, waged war, and concluded treaties. India employed its soft power via religion, art, and philosophy to influence Southeast Asia with Hinduism and Buddhism. Wars were mostly local in nature, with rare pan-Indian campaigns such as those of the Mauryas or Mughals.

During the Colonial Period:

The British reshaped India's economy into one that supplied raw materials to Britain and was forced to buy British goods, damaging local industries and crafts.

British rule transformed India's geopolitical identity:

The defense and foreign policy of India were dominated by the British Crown, with no independent presence in the world. Indian princely states were free but were not allowed to deal with foreign affairs. India's borders were modified to fit colonial needs and, in doing so, neglected cultural and historical facts. Indian soldiers were sent abroad to further British interests, from the World Wars to the enforcement of colonial laws.

81. How did the British colonial domination of India impact the country?

Ans. : Resource Drain: Britain literally rained trillions of dollars worth of resources from India over almost two centuries.

1. Destruction of Irreplaceable Local Industries: Traditional economies of cotton textiles and local craft industry were destroyed by forced British imports.
2. Land Revenue Practices: Land revenue practices such as the Permanent Settlement created immense debt and landlessness for farmers working the land and its resources.
3. Famines: British neglect of natural disasters meant that instead of offering any relief, state focus turned to tax collection during droughts, thus aggravating famines like the Bengal famine of 1943.

- Political Change

Loss of Sovereignty: India's leaders changed or were subject to foreign authority and foreign affairs, foreign policy and defence were taken over by Britain.

1. Top-Down Authority Structure: British administrative structures replaced local governance apparatuses, and established the groundwork for modern civil services in India.

2. Legal System Replacement: Traditional justice systems that preferred traditional customs and practices were replaced with English common law, which was frequently biased towards colonial interests.

- Social and Cultural Changes

1. Western Education: English-language schools cultivated a new elite while excluding Indigenous knowledge and languages.

2. Western Education: English-language schools cultivated a new elite while excluding Indigenous knowledge and languages.

- Infrastructure & Modernisation

1. Railways & Roads: They were designed primarily for British Trade and military use, later the railways and roads served India's unification and the independence struggle.

2. Communications Networks: The telegraph and postal networks had increased connectivity across India, but these were still tools to develop connectivity for colonial administrations use.

82. What do you think the cartoon Fig. is trying to express? (Keep in mind that the telegraph, which permitted instant communications for the first time, was then a recent invention.) Analyse different elements of the drawing.

Ans. : Speed of Communication: Before the telegraph, messages traveled between countries in weeks or months. The cartoon will likely show characters shocked or amazed that they can now send messages "faster than the wind." Visuals could

include a character in London pressing a key on a telegraph, while someone in India or America receives it instantly.

Transformative Power: This cartoon might illustrate the telegraph as powerful technology that continues to link previously remote sectors of the globe. It might depict a world being “shrunk” – the Earth seems smaller when people are able to communicate from continent to continent.

Colonialator: From a colonialism perspective, the telegraph allowed the British and other empires to assert their control over colonies much more easily. A cartoon can depict a British officer relating orders from London to officer in India instantly, with the commanding officer smiling – meaning he/she had total control.

83. Before you read further, have a good look at the painting on the first page of this chapter. It was specially ordered for the London headquarters of the East India Company and is over three metres long. Observe every aspect of it the people in it, the objects, the symbols and the attitudes. Form groups of four or five students and let each group present its conclusions as regards the messages the painting conveys. (You will find our answers a few pages down, when we return to the painting, but avoid looking at them right now!)

Ans. : This painting shows the following aspects:

1. **Britain as Powerful and Supreme:** At the top, a white woman, Britannia, is seated, dressed like a goddess, representing Britain. She looks calm and confident, showing that Britain is powerful and in control.
2. **India Offering Wealth:** India is shown as a land full of riches. Dark-skinned figures (likely Indians) are bowing and offering pearls, jewels, and cotton to the British. This shows India as a supplier of valuable goods.
3. **China’s Role:** A figure from China is also offering a precious jar, suggesting that China too is contributing wealth to Britain.
4. **Animals and Trade:** Exotic animals from India are shown, and a man with a winged helmet (symbol of commerce and travel) holds a staff, symbolizing Britain’s global trade power.
5. **The East India Company’s Naval Power:** In the foreground, a powerful man with a trident represents the sea and naval strength, showing how the British controlled the seas and trade routes.
6. **‘Old Father Thames’:** The man in the bottom left symbolizes the River Thames and London, indicating that all the wealth from India and China is being brought to Britain.

Conclusion: According to all the groups in my class, the painting conveys one common message that Britain, especially through the East India Company, was a powerful, god-like force that ruled over the wealth of India and other countries, using naval power, commerce, and controlled the colonies. It also showed that the colonies were places that exist to serve Britain by giving them their riches.

84. Do you understand all the terms used above to list and describe Indian textiles? If not, form groups of four or five and try to find out more, then compare your findings with the help of your teacher

Ans. : 1. Cotton: Cotton is a soft, fluffy fiber that grows around the seeds of cotton plant. It is used to make light and breathable clothes.

2. Silk : Silk is a fine and luxurious fabric that is commonly used to make saree, suite-salwar, and kurtas etc.

3. Wool : Wool is a soft, warm fiber taken from the fleece (hair) of animals like sheep, it is highly used during winters to make sweaters, shawls, mufflers etc.

4. Jute : Jute is a rough yet very strong fiber; used to make sacks, ropes, carpets, and mats.

5. Hemp : Hemp is a very strong natural fiber. It is used to make bags and ropes.

6. Coir : Coir is a dried fiber taken from the outer husk of coconuts.

7. Muslin : Muslin is a fine cotton; famous in Dhaka (Bangladesh) was used for royal garments and now is used to make regular wear cotton clothes.

85. Examine the map. What are the main differences with the map of today's India, in terms both of borders and of names?

Ans. : This historical map of the Indian Empire shows many differences from the map of today's India. Here are the main changes:

1. Borders:

a. During British reign in 1909, India included Pakistan, Bangladesh, and Myanmar (Burma) as well.

b. These countries have become separate nations now.

c. The northwestern border included Baluchistan and the North West Frontier Province (now in Pakistan).

2. Some places are called with different names now. For example:

a. Calcutta is now Kolkata

b. Bombay is now Mumbai

c. Madras is now Chennai

d. Burma is now Myanmar

During British rule the regions were called Provinces, Agencies, or Native States, which no longer exist under those names.

3. Territories:

a. The map shows areas in pink as "British India" (directly ruled by the British).

b. Areas in yellow were "Native States" ruled by Indian kings under British control.

c. Today, all areas are part of the Republic of India, with states and union territories except neighbouring countries Pakistan, Bangladesh and Myanmar, which were formed later.

4. Railways: The map also shows railway lines which were important during British rule for transport and control.

86. Some argue that stolen cultural heritage has been better preserved abroad than it would have been in India. What is your view on its repatriation? Discuss in groups.

Ans. : Some say stolen Indian art is safe in foreign museums, many feel these stolen items belong to India and should be returned. They are a part of our history, identity, and pride. Keeping them in foreign museums ignores the injustice of how they were taken. India is now capable of preserving them properly and sharing them with its people.

They should be brought back home where they truly belong. If the Indian art and heritage were not looted by the Britishers, they would have been kept safely in temples, mathas, or under royal palaces and guarded by the regional kings. They would have continued to inspire local artists, scholars, and devotees. Today, they could have been on display in Indian museums, serving as symbols of our rich history and cultural identity, rather than being scattered across foreign countries.

87. What exactly did Macaulay mean when he wrote that "a single shelf of a good European library was worth the whole native literature of India and Arabia"? And why should he want to make Indians "English in taste, in opinions, in morals, and in intellect"? How does this relate to the 'civilising mission' mentioned at the start of the chapter? Ask your teacher to guide a class debate on these questions.

Ans. : "Macaulay meant that European books were better than all Indian and Arabic books, in his perception. He thought Indian knowledge and ideology had no value compared to British learning. This shows his colonial mindset, how he looked down on Indian culture and learning! He wanted Indians to become like the British in the

way they think, live, and believe. This way, they could help the British rule India more easily, because they would accept British ideas and values. This relates to the “civilising mission”, mentioned in the start of the chapter, where the British claimed they came to educate and improve Indians. But in reality, it was a way to control them and weaken their own culture and identity. ”

88. What is colonialism? Give three different definitions based on the chapter or on your knowledge.

Ans. : Colonialism is the practice by which a powerful country controls and exploits another country or region, politically, economically, socially, and culturally, often using military force and economic pressure.

Three Different Definitions of Colonialism:

1. Definition from a historical perspective:” “Colonialism is a system in which a foreign power establishes control over another country or territory and uses its resources to serve its own interests.”

2. Political Definition: “Colonialism is the formal or informal political rule of one country over another, often involving conquest, annexation, and the suppression of local governance.”

3. Economic and Social Definition: “Colonialism is a process where a dominant country exploits the economy, labor, and natural resources of the colonised land, while also trying to impose its language, education, and culture.”

89. Colonial rulers often claimed that their mission was to ‘civilise’ the people they ruled. Based on the evidence in this chapter, do you think this was true in the case of India? Why or why not?

Ans. : No, this claim was not true in the case of India. The British claimed that they came ‘ to “civilise” Indians by introducing modern education, law and order railways and so on but the real motive was economic exploitation and political control. The so-called civilising mission was a cover to justify colonisation.

Evidence from the Chapter:

1. Economic Exploitation:

- India’s raw materials like cotton, indigo, and spices were taken to feed British industries.
- Indian industries, especially textiles, were destroyed to promote British imports and policies.

2. Heavy Taxation and Famines:

- The British imposed high taxes on peasants and landowners.
- During the Famine of 1770-72, millions died, but the British continued collecting revenue instead of providing food at minimum cost.

3. Destruction of Traditional Governance:

- The British dismantled India’s indigenous ruling systems.
- Local rulers were defeated or forced into unfair treaties.

4. Biased Education Policies:

- Macaulay's English education aimed to create Indians who thought like the British.
- From the above evidences, we can conclude that colonialism deeply affected India's economy and culture, creating a social and religious division. The legacy of European colonialism in India is one of exploitation, brutal repression, violence and uprooting.

90. "Indians" funded their own subjugation." What does this mean in the context of British infrastructure projects in India like the railway and telegraph networks?

Ans. : During colonial rule, the British introduced major infrastructure projects such as the railway, telegraph, and postal networks. While these appeared modern and progressive, their main purpose was to serve British interests, not the welfare of Indians.

How Indians 'Funded their own subjugation

Aspect	Explanation
Indian Taxes	Indian peasants, farmers, and workers were heavily taxed. This money was used to finance infrastructure projects.
Railways	Built to transport raw materials (like cotton, coal, indigo) from the interiors to ports for British industries not to help Indian travel or trade.
Telegraph & Communication	Set up mainly to maintain fast communication between British officials and troops helping suppress Indian revolts quickly.
No Indian Benefit	Indians bore the cost through taxes, land revenue, and labor while getting very little in return. Education, health, and rural development were ignored.

Conclusion: The infrastructure may have modernized India physically, but it was funded by Indians to strengthen British economic and military control. So, Indians unknowingly paid in the form of heavy taxes and natural resources in India, for the very tools used to dominate and exploit them.

91. What does the phrase 'divide and rule mean? Give examples of how this was used by the British in India?

Ans. : “Divide and Rule” refers to a strategy used by the British to maintain their control over India by creating or deepening divisions among Indians especially on the basis of religion, caste, region, and class so that Indians would not unite against British rule.

Examples of “Divide and Rule” Policy in India:

Strategy	Description
Hindu-Muslim Divide	The British often portrayed Hindus and Muslims as different and opposing communities. This led to growing mistrust and later the partition of Bengal in 1905.
Princely States vs. British India	The British kept Indian princes loyal by giving them gifts, titles, or autonomy. This helped prevent a united Indian front.

Conclusion: The British mastered the art of “Divide and Rule”, using religious, social, and political differences among Indians to keep them weak and disunited making it easier for a small foreign power to rule a vast country.

92. Choose one area of Indian life, such as agriculture, education, trade, or milage life. How was it affected by colonial rule? Can you find any signs of those changes still with us today? Express your ideas through a short essay, a poem, a drawing, or a painting.

Ans. : Colonialism and Indian Agriculture: A Lasting Impact Under British colonial rule, Indian agriculture underwent a massive transformation but not for the benefit of the farmers or the people. The British introduced cash crop farming like indigo, cotton, and opium, forcing farmers to grow crops that suited British industries instead of food for local consumption.

The Permanent Settlement of 1793 made zamindars (landlords) responsible for collecting taxes, which led to the exploitation of peasants. These farmers had to pay heavy taxes regardless of their harvest, pushing many into debt and poverty. Famines became more frequent like the devastating famine of 1770, where millions died, even while grains were exported to Britain.

The British also introduced the railways, not to help farmers sell their produce, but to transport raw materials quickly to ports. Indian agriculture became heavily dependent on global markets controlled by the British.

Many farmers are trapped in debt. There’s a continued focus on cash crops over food crops in some regions. The zamindari mindset still lingers in parts of India

where landowners exploit laborers. Rural distress, poor irrigation, and lack of fair pricing can still be traced back to colonial-era policies.

93. Imagine you are a reporter in 1857. Write a brief news report on Rani Lakshmbai's resistance at Jhansi. Include a timeline or a storyboard showing how the rebellion began, spread, and ended, highlighting key events and leaders.

Ans. : The Jhansi Flame: Rani Lakshmbai's Heroic Resistance!

Date: June 1858

Reporter: Vansh Mishra The Hindustan Herald

Jhansi, Bundelkhand Region : The brave Rani Lakshmbai, the queen of Jhansi, stood tall against the might of the British East

India Company in one of the fiercest episodes of the 1857 Rebellion. When the British tried to annex Jhansi under the Doctrine of Lapse, denying her adopted son Damodar Rao's right to the throne, the Lakshmbai famously declared, "I shall not surrender my Jhansi!" Refusing to bow to colonial injustice, she led her army comprising women warriors and loyal sepoys into battle. Her courage, leadership, and swordsmanship have turned her into a legend across India. In June 1858, after intense fighting, British forces captured Jhansi. But Rani Lakshmbai escaped, regrouped, and joined forces with Tatya Tope and the Nawab of Banda. She died heroically in battle at Gwalior, sword in hand, dressed as a soldier. Her resistance continues to inspire a nation rising in unity.

Timeline / Storyboard: Rani Lakshmbai and the 1857 Revolt

1. 1853 – British annex Jhansi under the Doctrine of Lapse.

- Rani protests the decision; appeals to the British, which are ignored.

2. May 1857 – Revolt begins in Meerut and spreads rapidly across north India.

- Sepoys and local rulers rise against British rule.

3. June 1857 – Jhansi rebels; British officers are killed.

- Rani Lakshmi Bai reluctantly assumes command to protect the city.

4. March 1858 – British under Sir Hugh Rose lay siege to Jhansi.

- Rani leads a fierce defense. Women also take up arms.

5. April 1858 – Jhansi falls, but Rani escapes with her loyal forces.

6. June 1858 – Rani joins Tatya Tope in Gwalior.

- Fights the British in her final battle.

- June 17, 1858: Rani Lakshmi Bai is martyred.

- Statues and poems celebrate her bravery ("Khoob ladi mardani, woh toh Jhansi wali Rani thi!").

- Remembered as a symbol of resistance and patriotism.

- Honored annually in schools, parades, and women's leadership programs.

94. Imagine an alternate history where India was never colonised by European powers. Write a short story of about 300 words exploring how India might have developed on its own path.

Ans. : Title: The Lotus Never Wilted

In an alternate timeline, the sails of the Portuguese ships were blown off course in 1498, never reaching Calicut. The British, preoccupied with wars in Europe, turned their eyes elsewhere. India, untouched by colonial domination, flourished under a confederation of regional kingdoms bound by trade, diplomacy, and cultural unity.

By the mid-1700s, the Maratha Confederacy and the Mysore Sultanate formed a Grand Assembly with the Rajput kingdoms and the Sikh Empire. This political innovation, known as the Bharatiya Sabha, allowed for shared governance, trade regulation, and collective security. Sanskrit and Persian were retained as scholarly languages, while regional tongues thrived through education and literature.

Instead of railways built for resource extraction, India built its own transport systems to unify its vast geography. Indigenous industries in silk, cotton, metalwork, and shipbuilding modernised through global exchange with Japan, the Ottoman Empire, and China. Universities in Takshashila and Nalanda were revived, blending ancient philosophy with modern science.

By 1900, India was a global leader in astronomy, Ayurveda, and mathematics. The city of Varanasi was known as the "Light of the East," rivaling Paris and Tokyo in art and academia. The caste system had weakened under pressure from reformist leaders like Savitri Bai Holkar and Maulana Azad Khan, who championed universal education and equal rights.

In this India, the tricolor still flew not as a symbol of freedom from colonization, but of unity in diversity, of a civilization that charted its own path without ever being shackled. The lotus, undisturbed by foreign hands, bloomed freely in the sunlight of self-determination.

95. Role-play: Enact a historical discussion between a British official and an Indian personality like Dadabhai Naoroji on the British Colonial rule in India.

Ans. : A Historical Role-Play Dialogue:

Setting: London, late 1890s. A private chamber in the British Parliament after a debate.

British Official (Sir Edward Harrington): Mr. Naoroji, while I respect your intellect, I must say your so-called "Drain Theory" is rather exaggerated. The British Empire has brought railways, law, and education to India. Surely, the benefits outweigh the costs?

Dadabhai Naoroji: Sir Harrington, with due respect, I acknowledge the infrastructure and institutions established but at whose expense? India's wealth is being drained to Britain under the guise of administration, trade, and defense without fair return. My knowledge says millions of pounds were taken from India without equivalent service.

Sir Harrington: But India is a part of the Empire. It is only natural that subjects contribute to the crown's responsibilities. Would India have had such modern systems without British guidance?

Naoroji: Guidance should not be exploited. We are not against progress, but it must be equitable. You build railway to transport raw materials not to empower Indians. Our industries are dying, our artisans are impoverished, and famine haunts us while British coffers grow. Is this progress?

Sir Harrington: It is the nature of the empire resources flow to the center. That is how civilisation advances.

Naoroji: Then allow Indians to govern themselves. If the Empire truly seeks civilisation, let it begin with justice. We seek representation, rights, and dignity. Not charity, but self-rule.

Sir Harrington (pauses): You are a rare Indian voice in Parliament, Mr. Naoroji. But do you truly believe India is ready for self governance?

Naoroji: We are more than ready. For centuries, India governed itself with wisdom. We ask not for domination, but for the return of what is rightfully ours our voice, our wealth, and our freedom.

96. Explore a local resistance movement (tribal, peasant or princely) from your state or region during the colonial period. Prepare a report or poster describing:

- What was the specific trigger, if any?
- Who led the movement?
- What were the demands?
- How did the British respond?

Ans. : Report: The Santhal Rebellion (1855-56)

Region: Present-day Jharkhand (then part of Bengal Presidency)

Tribal Group: Santhals

Trigger: The Santhals were forced to live under the oppressive rule of zamindars, moneylenders, and British revenue officials. Land alienation, high taxes, and exploitation led to poverty, loss of dignity, and starvation. The Santhals, once peaceful cultivators, were pushed to desperation.

The Spark: In June 1855, in a village called Bhognadih, leaders Sidhu and Kanhu Murmu raised the banner of revolt. Thousands of Santhals gathered, declaring they would no longer obey British laws or pay taxes.

Leaders of the Movement

1. Sidhu Murmu
2. Kanhu Murmu
3. Supported by brothers Chand and Bhairav

These brave leaders mobilised around 60,000 Santhals to fight for justice.

Demands and Actions

1. End to zamindari exploitation.
2. Return of tribal land.
3. A government by Santhals for Santhals.
4. Punishment of corrupt moneylenders and British agents.

The Santhals attacked British outposts, government buildings, and moneylenders'

houses using traditional weapons and guerrilla warfare.

British Response

1. The British responded with brutal force.
2. Martial law was declared.
3. Thousands of Santhals were killed.
4. Sidhu and Kanhu were eventually captured and executed.

Legacy and Memory

1. Remembered as the first major tribal uprising against the British.
2. Bhognadih is now a memorial site.
3. June 30 is celebrated as Hul Diwas (Day of Revolt).
4. Songs, dances, and plays in tribal villages still narrate their bravery.
5. Statues of Sidhu-Kanhu are found in Dumka and Ranchi.
6. Santhal Hul Museum preserves their memory.

* Match the Following.

[10]

Column A	Column B
97. Vasco da Gama	(i) 1857 Revolt
98. Doctrine of Lapse	(ii) Introduced by Lord Dalhousie
99. Rani Lakshmi Bai	(iii) Reached Calicut in 1498
100. Battle of Plassey	(iv) Decline of Indian weavers
101. British Textile Imports	(v) 1757

(a) 1 - (ii), 2 - (iii), 3 - (i), 4 - (iii), 5 - (v)

(b) 1 - (v), 2 - (iv), 3 - (i), 4 - (iii), 5 - (ii)

(c) 1 - (iv), 2 - (v), 3 - (ii), 4 - (i), 5 - (iii)

(d) 1 - (iv), 2 - (v), 3 - (iii), 4 - (i), 5 - (ii)

(e) 1 - (iv), 2 - (v), 3 - (ii), 4 - (i), 5 - (iii)

Ans. : self

Column A	Column B
102. Vasco da Gama	(i) Revolt leader Jhansi (1857)
103. Doctrine of Lapse	(ii) Reached Calicut in 1498
104. Rani Lakshmbai	(iii) Introduced by Lord Dalhousie

(d) 1 - (iv), 2 - (v), 3 - (iii), 4 - (i), 5 - (ii)

Ans. : (a) 1 - (ii), 2 - (iii), 3 - (i), 4 - (iv), 5 - (v)

*** CASE BASED QUESTIONS**

[8]

The British transformed India's economy from a self-sufficient agricultural system supplemented by craft and manufacture production into a supplier of raw materials for British industry and a market forced to buy British goods. Without going into the technical details of this economic transformation, let us take the example of the construction of India's vast railway network, often cited as a colonial blessing.

While the railways did bring people closer together and integrated India's internal market, it was designed primarily to move raw materials from the interior to ports for export and to distribute British manufactured goods throughout India. Railway routes largely ignored existing trade patterns to serve colonial economic interests. Another purpose was to move armies quickly from their cantonments if they had to fight a distant rebellion or war.

107. Why did the British introduce railways in India?

108. How did modern education serve British interests?

109. Mention one way in which Indian industries were affected by British policies.

Ans. : 1. Railways were introduced to make the transportation of raw materials and communication between administrative centers faster and more efficient for the British.

2. Modern education was introduced to create a class of Indians who would assist the British in administration and act as intermediaries.

3. Indian handloom and cottage industries declined because they could not compete with cheap, machine-made British goods.

"The natives are rising in many provinces. Their anger is fueled not just by our rule, but by the fear that their land, faith, and culture are under threat. Even women, such as the Rani of Jhansi, have taken up arms "

110. What emotions and concerns of Indians does the officer acknowledge?

111. What does the mention of "even women" suggest about the nature of the rebellion?

112. How does this source reflect the scale and intensity of the 1857 Revolt?

Ans. : 1. The officer acknowledges Indians' anger over loss of land, threat to religion, and cultural interference.

2. The phrase "even women" highlights the extraordinary participation of women like Rani Lakshmibai, showing the rebellion involved all sections of society.

3. It reflects that the revolt was widespread and deeply felt, alarming even British officials.

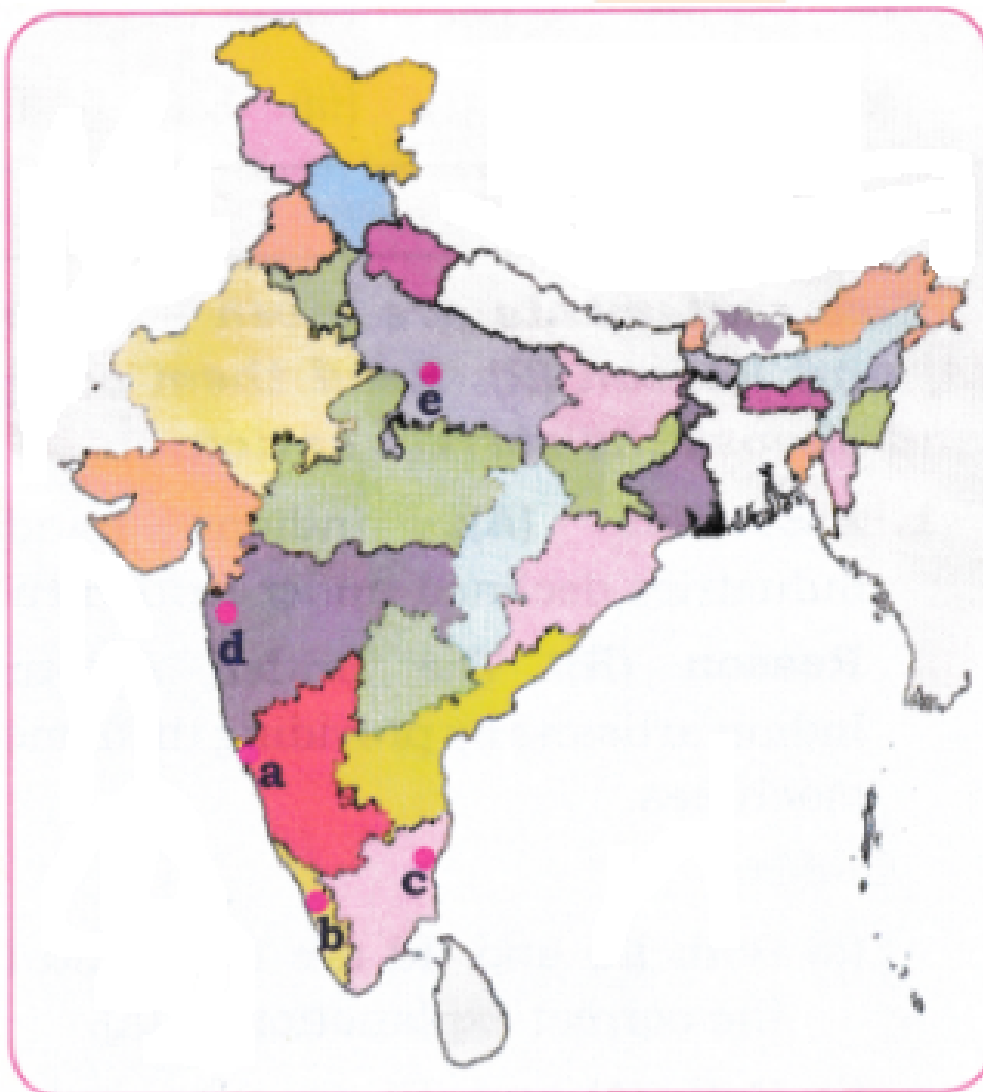

* MAP SKILL BASED QUESTION

[9]

113. On the given political map of India, mark and label the following places:

- (a) Capital of Portuguese colony in India
- (b) Most significant Dutch trading post
- (c) French administrative capital in India
- (d) First French trading post
- (e) Rani Lakshmibai's kingdom

- Pondicherry
- West Bengal
- Jhansi
- Surat
- Kerala
- Delhi
- Goa
- Karnataka (Malabar region)

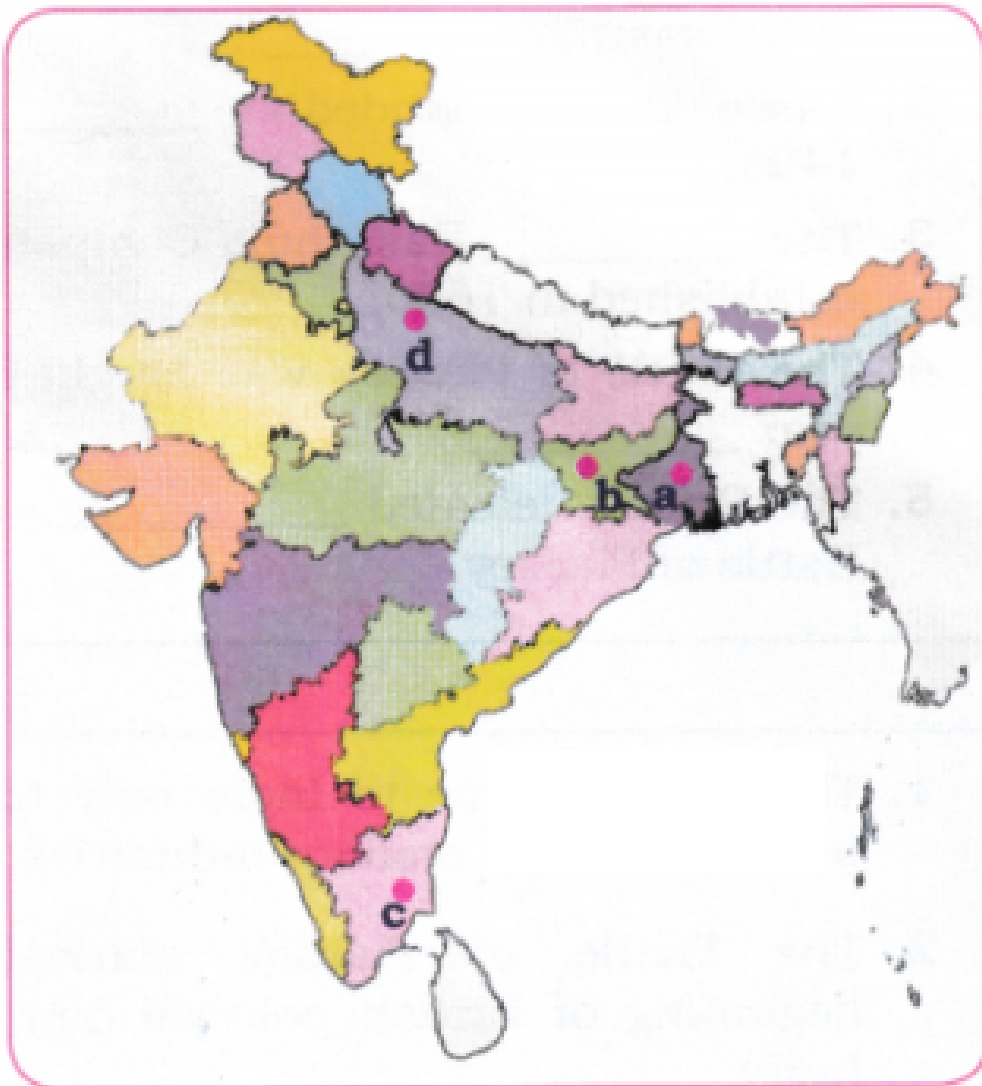

Ans. : (a) Goa

(b) Karnataka (Malabar region)

- (c) Pondicherry
- (d) Surat
- (e) Jhansi

114. Read the following clues carefully, figure out the places and mark them on the given political map of India.

- Pondicherry
- West Bengal
- Bihar
- Jharkhand
- Awadh (Uttar Pradesh)
- Tamil Nadu
- Odisha

- Ans. :** (a) West Bengal
(b) Jharkhand
(d) Tamil Nadu
(e) Awadh (Uttar Pradesh)

On a political map of India during the British era, the following places are marked:

- Calcutta
- Bombay
- Madras
- Jhansi
- Meerut

115. Identify any two cities that were major presidency towns under British rule.
116. Which city is associated with the start of the 1857 Revolt?
117. Name the queen who led the revolt from the region of Jhansi.

- Ans. :**
1. Bombay and Madras were two major presidency towns.
 2. Meerut is associated with the start of the 1857 Revolt.
 3. Rani Lakshmbai led the revolt from the region of Jhansi.

Student Bro
